Acknowledgement

The authors would like to thank the Director General of Health Malaysia and the National Health and Morbidity Survey (NHMS) Steering Committee members for supporting this research project via financial grant and technical support. The research team member also would like to express their gratitude to the Director General of Education Malaysia as well as Director of Nutrition and other staff at Nutrition Division, Food Safety & Quality Division for their inputs.

The Adolescent Nutrition Survey would not have been completed without the commitment and dedication shown by the Ministry of Education in conducting this study at selected schools nationwide. We specifically thanks the State Education Department, principals, headmasters, teachers, students and parents for their excellent cooperation and commitment throughout the study.

The authors wish to extend our gratitude to all research team members. We are deeply indebted to the staff of the Institute for Public Health, State Health Department, State and District Nutritionist and our committed research assistants who contributed greatly to this study. Without their support and commitment, this study would not have come this far.

Executive Summary

The Adolescent Nutrition Survey (ANS) was the second nation-wide study among adolescents in Malaysia after the Malaysia School-based Nutrition Survey (MSNS) 2012. There were three main scopes in this survey; which were Adolescent Nutrition Survey (ANS), Habitual Food Intake and Dietary Intake. ANS consisted of six topics such as nutritional status, body weight perception, meal pattern, physical activity, vitamin/mineral, food supplement intakes and food and nutrition labelling. This survey was conducted at 311 randomly selected schools in all states including three federal territories in Malaysia. It was a cross-sectional study involving school-going adolescents of Primary 4 to Secondary 5 attending schools in Malaysia. A multistage stratified cluster sampling design was used to recruit national representative samples from students in Standard 4 to 6 (10-12 years of age) and Form 1 to 5 (13-17 years of age). The survey was conducted using self-administered questionnaires and face-to-face-interviews. Total response rates for self-administered questionnaire were 89.5% for ANS, 96.4% for habitual food intake and 96.6% for dietary intake assessment.

Based on the indicator height for age (HAZ), the prevalence of normal height ($HAZ \geq -2SD$) was 88.1% and stunting was 11.9%. The prevalence of stunting was higher in rural areas (14.3%) as compared to urban areas (9.3%). In terms of BMI for age (BAZ), the prevalence of thinness was 5.9%, overweight was 14.1% and obesity was 9.9%.

Among those school-going adolescents who had actual normal weight, 45.3% correctly perceived their weight to be normal. Among those who were actually thin, 78.4% correctly perceived their weight to be thin, while among those who were actually overweight and obese, 38.7% and 12.7% correctly perceived themselves to be overweight and obese respectively. Health was the main reason among those who wanted to lose and gain weight; with 64.1% preferring exercise as an option to lose weight; 52.6% wanted to increase quantity of food to gain weight.

As for meal pattern, the prevalence of breakfast intake for seven days per week among adolescents was 35.1%. The majority of them had breakfast one to six days per week (58.4%) and some of them did not have breakfast in a week (6.5%). Among those who had breakfast, 67.5% had it at home. Adolescents from urban areas (41.3%) reported having breakfast daily (seven days per week), higher than rural areas (29.6%). The two main reasons of skipping breakfast were no appetite (46.1%) and no time (32.9%).

The prevalence of having lunch seven days per week among school-going adolescents was 46.1%; 51.6% had lunch up to six days per week and 2.3% did not have lunch in a week. No appetite (52.9%) and no time (15.9%) were the two main reasons for skipping lunch. As for dinner, 58.1% of school-going adolescents had dinner seven days per week, 39.6% 1-6 days per week and 2.3% did not have dinner in a week. Only 8.4% took heavy meals after dinner seven days per week.

There were 4.3% who had fast food daily and 12.7% did not have fast food. Social media (YouTube, Facebook, Instagram, etc.) and television were reported as the main sources which affected dietary pattern in 36.3% and 36.7%. A percentage of 28.2% reported that their dietary patterns were not affected by any media sources.

The prevalence of physical activity among school-going adolescents in Sabah was 45.6%. Boys and younger adolescents were more active than girls and older adolescents. The most favourite activities during spare time were walking for exercise, jogging / running, badminton, tagging and cycling. More adolescents watched television, played computer or video games over the weekend compared to schooling days.

The prevalence of vitamin / minerals and food supplements intake among adolescents in Sabah was 47.8% and 31.5%. In average, the vitamin/mineral and food supplements were consumed everyday by 17.6% and 12.3% of adolescents. The most commonly consumed vitamin / minerals and food supplements were Vitamin C 36.1% and bee product 11.4% (95% CI: 9.12, 14.10). The main reason for taking vitamin / minerals and food supplements was due to parent's advised, which 41.9 % and 26.4% respectively.

Food and nutrition labelling use was assessed among secondary school-going adolescents; 35.1% always reading food and nutrition labelling. Another 48.5% reported as sometimes and only 16.4% never reading food label. They were more concerned about fat and total energy compared to other nutrients. 33.8% of adolescents both answered correctly on nutrition facts and 17.8% of adolescents answered correctly questions regarding the front of pack labelling and only 6.6% answered both correctly regarding the most and least ingredients based on the food ingredient list.

1.0 Introduction

Adolescence is a period of transition between childhood and adulthood. The World Health Organization (WHO) defines an adolescent as any person between ages 10 and 19 (WHO, 2014). Adolescence is a critical period because major biological and psychological changes occur during a very short period of time.

Adolescent health should be given attention because adolescents are the future generation of any country and their health status is critical for the well-being of society. Chronic malnutrition is one of the major health problems encountered by adolescents living in developing countries (World Health Organization, 2006). The high rate of malnutrition in girls not only contributes to increased morbidity and mortality associated with pregnancy and delivery but also increased risk of delivering low birth-weight babies (World Health Organization, 2006). This contributes to the intergenerational cycle of malnutrition.

The nutritional issue in adolescents should be prioritized because growth during adolescence is at a fast pace. Adequate nutrition during adolescence is important to cover the deficits suffered during childhood. Moreover, extra micro and macro-nutrients are required to meet the demands of physical and cognitive growth, as well as provide adequate stores of energy for illnesses and pregnancy. To a more important extent, epidemiological evidence proved that there is a link between child and adolescent poor nutritional status and increased risk of various chronic diseases during adulthood (Case, Fertig, & Paxson, 2005).

Due to the targets of the first Millennium Development goal to "eradicate extreme poverty and hunger, the underweight prevalence in children was projected to decline from 26.5% in 1990 to 17.6% in 2015 across the world and specifically in developing regions; the prevalence was forecasted to decline from 30.2% to 19.3% (Onis, Blossner, Borghi, Frongillo, & Morris, 2004). Under nutrition rate in Malaysian children also showing a decreasing pattern. Data from the Third National Health and Morbidity Survey (NHMS III) 2006 in Malaysia found that the prevalence of underweight, stunted and thinness in children below 18 years old were 13.2%, 15.8% and 7.8% respectively (Institute of Public Health (IPH), 2008). However, these conditions were generally improved whereby the prevalence of underweight, stunting and thinness were reduced to 13.0%, 13.4% and 7.8% respectively in NHMS 2015 (IPH, 2015). NHMS 2011 reported that the national prevalence of thinness among adolescents specifically was 9.7% (IPH, 2011)

Recently, a systematic review reported that the prevalence of overweight and obesity among adolescents worldwide is high, and obesity is higher among boys (Bibiloni, Pons, & Tur, 2013) and Malaysia is showing a similar pattern as well. The prevalence of obesity among children was only 5.7% in the year 2006 (IPH, 2008) and it drastically increased to 11.9% in 2015 (IPH, 2015). NHMS in the year 2011 showed that the nationwide prevalence of obesity in adolescent aged 10 – 17 was 5.7% (IPH, 2011).

High-calorie intake and sedentary lifestyle are two common behavioral factors related to childhood obesity. Childhood and adolescent obesity are an epidemic and should be given attention because they are associated with various medical chronic conditions in adulthood (Sahoo et al., 2015). Reading food labelling prior to food purchasing can help adolescents in making healthier choices on packaged snacks. However, use of nutritional labelling was found to be low among adolescents (Wojcicki & Heyman, 2012). Thus, Adolescent Nutrition Survey NHMS 2017 aimed to continue exploring issues pertaining to nutrition related components such as nutritional status, body weight perception, meal pattern, habitual food intake, dietary intake, physical activity level, vitamin/mineral and food supplement intake and food and nutrition labelling among Malaysian adolescents aged 10 – 17 years.

1.1 Objectives

1.1.1 General Objectives

To determine the prevalence of nutritional status, body weight perception, habitual food intake, dietary intake, meal pattern, physical activity level, vitamin/mineral and food supplements and food and nutrition labelling among adolescents in Malaysia.

1.1.2 Specific Objectives

- 1.1.2.1 To determine the prevalence of nutritional status among adolescents (Standard 4 to Form 5) in Malaysia.
- 1.1.2.2 To assess self-perception on body weight and intentions on weight management among adolescents (Primary 4 to Secondary 5) in Malaysia.
- 1.1.2.3 To determine the meal pattern among adolescents (Primary 4 to Secondary 5) in Malaysia.
- 1.1.2.4 To assess physical activity pattern of adolescents (Primary 4 to Secondary 5) in Malaysia.
- 1.1.2.5 To determine the pattern of vitamin/mineral and food supplements intake among adolescents (Primary 4 to Secondary 5) in Malaysia.
- 1.1.2.6 To determine the prevalence of reading food and nutrition labeling among adolescents (Secondary 1 to Secondary 5) in Malaysia.

1.2 The NHMS 2017 Organisation Team

The organisation of NHMS 2017 was set up at various levels at the Ministry of Health and Ministry of Education in order to conduct this survey.

1.2.1 NHMS Steering Committee

The NHMS Steering Committee, chaired by the Director-General of Health was set up at the national level to approve scopes of the NHMS 2015-2018 and to facilitate implementation of the survey. The members and terms of reference of this committee are shown in **Appendix 1** and **Appendix 2**.

1.2.2 Central Coordinating Team (CCT)

A working committee within the Institute for Public Health was established to coordinate implementation of the survey according to the scheduled Gantt chart. The Operation Centre was set up and led by the CCT team for coordinating and monitoring progress of the survey.

The list of CCT members and terms of reference are shown in **Appendix 3** and **Appendix 4**.

Figure 1 detailed the organisation chart at the Institute for Public Health . Adolescent Nutrition Survey was part of NHMS 2017 using the sample from primary and secondary schools.

1.2.3 Research Team Members

Research team members for each sub-scope were established and headed by a key-person (among IPH officers) together with the relevant stakeholders and universities. Research team members were responsible for the technical input in development of the questionnaire, manual, variable definition, data analysis and writing of the final report.

The list of members for each research team are shown in **Appendix 5**.

1.2.4 State Liaison Officers and Data Collection Team

A State Liaison Officer (Nutritionist) was appointed in each State to facilitate planning and implementation of data collection within the States. The list of State Liaison Officers and Data Collection Teams are shown in **Appendix 6**.

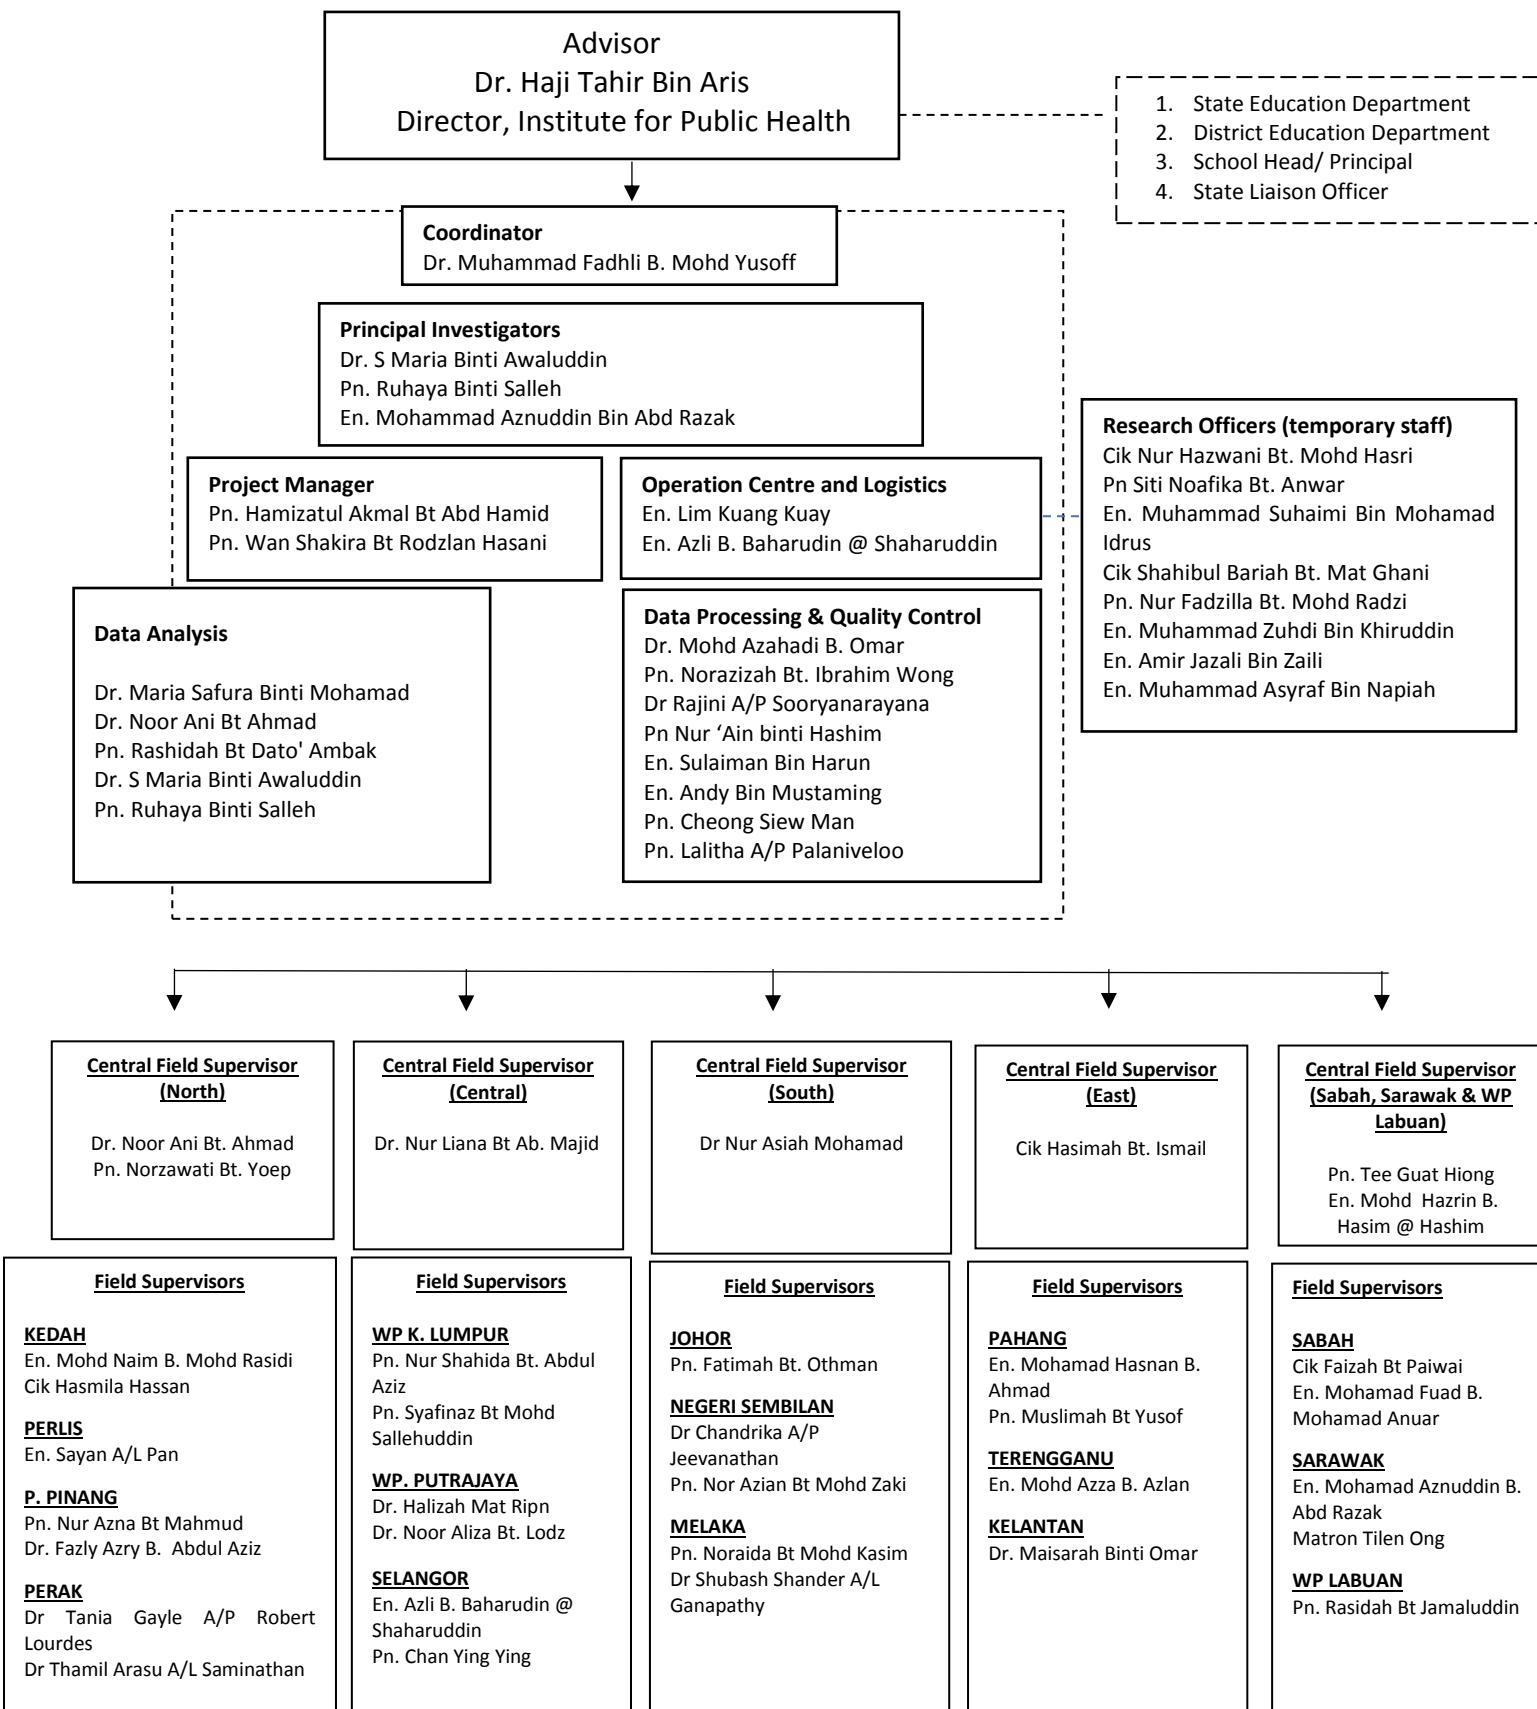

Figure 1: Organisation chart for data collection teams NHMS 2017

2.0 Methodology

Methodology and Sampling Design

Three main scopes of research were incorporated in the survey, namely the Adolescent Nutrition Survey (ANS), Habitual food intake and Dietary Intake.

2.1 Target Population

Generally, the Adolescent Nutrition Survey 2017 was conducted at all 16 states including three federal territories in Malaysia. This school-based survey was a cross-sectional study involving school-going adolescents aged 10 to 17 years old attending public and private schools.

2.2 Sampling Frame

The sampling frame in this survey was a list of primary and secondary schools from the Ministry of Education. Students' enrolment data of 2016 from Standard 4 until Standard 6 (primary school) and Form 1 until Form 5 (secondary school) were used. There were 7926 primary schools and 2688 secondary schools in 2016. Both public and private schools were included in the sampling frame.

2.3 Sample Size Determination

Sample size was calculated using a single proportion formula for estimation of prevalence.

$$Z^2_{\alpha/2} (p)(1-p)$$

$$n_{SRS} \geq \frac{Z^2}{e^2}$$

The sample size calculation was based on a few criteria as below:

1. Variance of proportion of the variable of interest (Based on Malaysia School-Based Nutrition Survey 2012)
2. Margin of error (e) (Between 0.01 to 0.05)
3. Confidence Interval of 95%

To ensure optimum sample size, a few adjustments were made as follows:

1. Adjusted n(srs) for the total number of target population (N) (based on the population size for schoolchildren in 2016)

$$n \geq \frac{n_{SRS}}{1 + \frac{n_{SRS}}{N}}$$

2. Adjusted for the design effect (deff) (based on previous survey: MSNS 2012), n(complex) = n * deff
3. Adjusted the n(complex) taking into account expected non-response rate of 25%, n(adj) = n(complex) * (1 + non-response rate)

4. The sample size was adjusted according to the need of the analysis, analysis to be carried out at the national or state level.

Based on the requirements for the objectives and abovementioned considerations, the optimum sample size required was 30,496 respondents for secondary schools and 14,000 respondents for primary schools (**Table 2.1**).

Table 2.1: Distribution of Secondary and Primary Schools Sampled by State, NHMS 2017

| No. | State | Secondary | | | Primary | | |
|--------------|-----------------|-------------------------|---------------------------|----------------------------|-------------------------|---------------------------|----------------------------|
| | | Total Number of Schools | Number of Schools Sampled | Number of students sampled | Total Number of Schools | Number of Schools Sampled | Number of students sampled |
| 1 | Johor | 306 | 14 | 1906 | 921 | 6 | 875 |
| 2 | Kedah | 219 | 14 | 1906 | 552 | 6 | 875 |
| 3 | Kelantan | 193 | 14 | 1906 | 423 | 6 | 875 |
| 4 | Melaka | 87 | 14 | 1906 | 236 | 6 | 875 |
| 5 | Negeri Sembilan | 139 | 14 | 1906 | 352 | 6 | 875 |
| 6 | Pahang | 209 | 14 | 1906 | 543 | 6 | 875 |
| 7 | Pulau Pinang | 141 | 14 | 1906 | 275 | 6 | 875 |
| 8 | Perak | 275 | 14 | 1906 | 852 | 6 | 875 |
| 9 | Perlis | 33 | 14 | 1906 | 73 | 6 | 875 |
| 10 | Selangor | 345 | 14 | 1906 | 727 | 6 | 875 |
| 11 | Terengganu | 162 | 14 | 1906 | 354 | 6 | 875 |
| 12 | Sabah | 246 | 14 | 1906 | 1,090 | 8 | 875 |
| 13 | Sarawak | 220 | 14 | 1906 | 1,274 | 7 | 875 |
| 14 | WP Kuala Lumpur | 133 | 14 | 1906 | 227 | 6 | 875 |
| 15 | WP Labuan | 19 | 8 | 1906 | 12 | 6 | 875 |
| 16 | WP Putrajaya | 11 | 8 | 1906 | 14 | 6 | 875 |
| Total | | 2,738 | 212 | 30,496 | 7,925 | 99 | 14,000 |

2.4 Sampling Design

This survey implemented a multistage stratified cluster sampling design to ensure nationally representative sample of Standard 4 to 6 (10-12 years of age) and Form 1 to 5 (13-17 years of age). Malaysia was stratified into 16 states (including Federal Territory of Kuala Lumpur, Putrajaya and Labuan). The first stage of sampling involved a random selection of school from a list of eligible schools provided by the Ministry of Education. Schools were selected randomly with probability proportional to school enrolment size. A total of 311 schools were selected to participate in this survey. The second stage of sampling was selection of classes. All classes in each selected school were included in the sampling frame. Systematic random

sampling was used to select classes from each selected school. All students in the selected classes were eligible to participate in the survey. The third stage of sampling was applied for Habitual Food Intake and Dietary Intake modules. Students were selected randomly from each selected class.

2.5 Ethical Approval

This study was approved by the Ministry of Health, Research and Ethics Committee and Ministry of Education Ethics Committee. Approval was also obtained from the relevant Ministry of Education officials at the state and district levels including the selected school itself. Prior to the survey, several meetings with the relevant Ministry of Education officers and person in-charge at the selected schools were carried out. Consent forms were obtained from parents and students.

2.6 Data Collection

A total of 36 teams were set up, 4 teams for Sabah and Sarawak and the remaining states 2 teams per state. Each team consisted of a field supervisor, research assistants and a driver. The field supervisor was a permanent staff in the Ministry of Health.

An initial data collection by the core team members was initiated to observe the flow of data collection on 6 March 2017. The data collection training was conducted for Peninsular Malaysia in Kuala Lumpur and Sabah, Sarawak and WP Labuan in Kuching, Sarawak simultaneously. Data collection was conducted from 26 March to 3 May 2017.

2.7 Data Management

Quality check on data was conducted throughout the survey based on specific identification (ID) numbers; from the state ID to individual student ID (generated for the study). Upon completing the survey, each student placed his / her answer sheet in an envelope. All answer sheets from the same school were wrapped together to make a bundle. These bundles were collected by assigned drivers for schools in Peninsular Malaysia or using tracked postage for schools in Sabah, Sarawak and WP Labuan.

2.7.1 Data Operation Centre

An operation centre with several stations was set up to receive data “bundles” from the field:

Station 1: Respondent ID checking

Station 2: Scanning

Station 3: Verification

Station 4: Storage

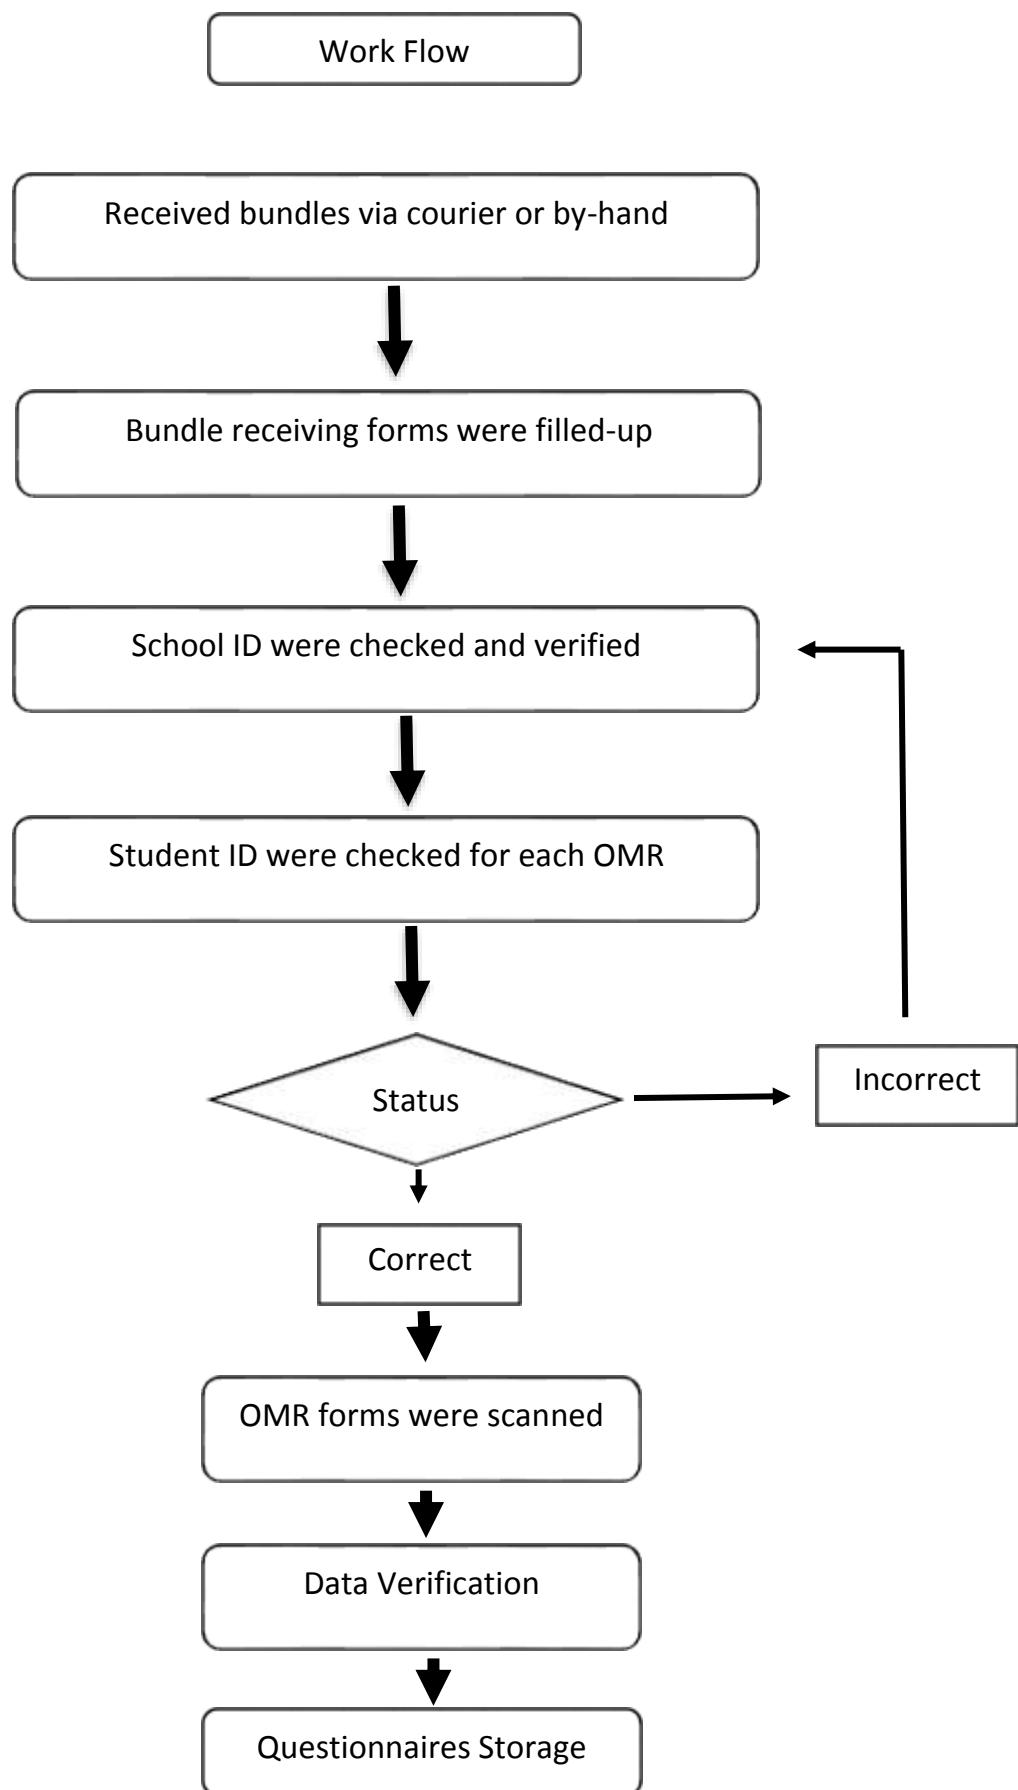

Figure 2: Work Flow of NHMS 2017

2.7.2 Data Analysis

The data set was checked, cleaned and edited for inconsistencies. Data analysis was done using SPSS version 21 by importing the raw dataset which normally in CSV form or excel. The analysis was done according to the objectives and dummy tables prepared. Complex sample analysis procedures were used in the analysis and was carried out at 95% confidence interval. The final data was representative of all students attending schools from Standard 4 to Form 5 in Malaysia.

A weighting factor was applied to each student record to adjust the varying probabilities of selection and for the non-response. The weight used for estimation is given by:

$$W = W_1 \times W_2 \times W_3 \times F \times PS$$

Where;

W_1 = the inverse of the probability of selecting the school

W_2 = the inverse of the probability of selecting the class within the school

W_3 = the inverse of the probability of selecting the student within the class

F = the inverse of a school, class and student level non-response adjustment factor

PS = a post stratification adjustment factor calculated by class and gender

2.8 Survey Instruments

Validated self-administered questionnaires with computer-scanned answer sheets were used. Students' privacy was ensured as the answer sheet were anonymous. Majority of the students completed the survey within two class periods.

The ANS questionnaire contained sub topic which was nutritional status, body weight perception, meal pattern, physical activity level, Vitamin/Mineral and Food Supplement and Food and Nutrition Labelling.

3.0 Findings

3.1 General Findings

A total of 40,087 questionnaires for adolescent nutrition survey were completed by the respondents. The school and class response rates were 100% respectively, while the student response rate for adolescent nutrition survey was 89.5%. Overall, the response rate was 89.5% (**Table 3.1.1**).

Table 3.1.1: Response Rate at Student Level for Adolescent Nutrition Survey by State, NHMS 2017

| State | Selected School | Eligible Student | Interviewed Student | Response Rate (%) |
|-----------------|------------------------|-------------------------|----------------------------|--------------------------|
| Malaysia | 311 | 44,773 | 40,087 | 89.5 |
| Johor | 20 | 2,829 | 2,565 | 90.7 |
| Kedah | 20 | 2,790 | 2,490 | 89.2 |
| Kelantan | 20 | 2,776 | 2,464 | 88.8 |
| Melaka | 20 | 2,862 | 2,685 | 93.8 |
| Negeri Sembilan | 20 | 2,823 | 2,431 | 86.1 |
| Pahang | 20 | 2,822 | 2,563 | 90.8 |
| Pulau Pinang | 20 | 2,846 | 2,547 | 89.5 |
| Perak | 20 | 2,832 | 2,527 | 89.2 |
| Perlis | 20 | 2,869 | 2,496 | 87.0 |

3.2 Nutritional status among adolescents (Primary 4 to Secondary 5) in Sabah

Contributors: Azli Baharudin, Junidah Raib, Chan Ying Ying, Poh Bee Koon, Tan Beng Chin, Suhaidi Sudin, Mohamad Hasnan Ahmad

3.2.1 Introduction

Good nutritional status contributes to healthy development of children. Anthropometric measurements are part of nutritional status components to assess body size and composition; and reflect adequate, inadequate or excessive food intake. It is also a reflection of individual activity level and disease states. Nutritional deprivation and excess may coexist, not only within household or the community but also across the country. Performing simple body measurements also helps to identify individuals, families or the community for intervention, which could improve not only nutritional status but also their health as a whole.

3.2.2 Objectives

General objective:

To determine the nutritional status of adolescents (Primary 4 to Secondary 5).

Specific objective:

To determine the prevalence of stunting, thinness, normal weight, overweight and obesity among adolescents (Primary 4 to Secondary 5) in Malaysia according to socio-demographic characteristics.

3.2.3 Variable definition

The nutritional status of adolescents was identified based on the World Health Organization Growth Reference 2007 (WHO 2007)¹. The major indices were:

- a. Height-for-Age z-score (for adolescents between (Primary 4 to Secondary 5), and
- b. BMI-for-Age z-score (for adolescents between Primary 4 to Secondary 5)

3.2.4 Findings

3.2.4.1 Height-for-Age z-score

The survey found that 88.1% (95% CI: 84.98, 90.60) of the adolescents had normal height-for-age status (HAZ: $\geq -2SD$ to $< +2SD$). The prevalence was lower than the national level [91.8% (95% CI: 91.19-92.29)]. Comparing between strata, rural area had higher percentage of total stunting [14.3% (95% CI: 11.11, 18.12)] compared to urban area [9.3% (95% CI: 6.13, 13.88%)]. In term of gender, girls had higher percentage of total stunting [14.1% (95% CI: 11.16, 17.69)] compared to boys [9.8% (95% CI: 7.39, 12.80)]. Comparing class category, primary level had higher percentage of total stunting [14.1% (95% CI: 10.96, 17.94)] compared to primary level [8.7% (95% CI: 5.78, 12.83)].

3.2.4.2 BMI-for-Age z-score

In terms of BMI-for-age status, the findings showed that 70.1% (95% CI: 66.74, 73.18) of the students was in the normal range ($\geq -2SD$ to $< +1SD$). The prevalence was higher than national level [62.9% (95% CI: 61.84, 64.02)]. Comparing between strata, urban area had higher percentage of thinness [6.3% (95% CI: 4.64, 8.46)] compared to rural area [5.6% (95% CI: 4.13, 7.55%)]. According to gender, more boys [6.3% (95% CI: 5.20, 7.71)] were thinner than girls [5.5 (95% CI: 3.88, 7.72)]. In term of class category, primary level had higher percentage of thinness [6.7% (95% CI: 4.88, 9.17)] compared to secondary level [5.4% (95% CI: 4.07, 7.12)].

Overall the prevalence of overweight among adolescents in Sabah (BMI-for-age: $> +1SD$ to $\leq +2SD$) was 14.1% (95% CI: 12.11, 16.46). The state prevalence was lower than the national prevalence [15.6% (95% CI: 15.06, 16.19)]. However, the prevalence of overweight was not much difference between urban [14.2% (95% CI: 10.42, 18.96)] and rural strata [14.1% (95% CI: 12.60, 15.82)]. Similarly, there was not much difference of overweight among boys [14.2% (95% CI: 11.01, 18.04)] and girls [14.1% (95% CI: 12.25, 16.25)]. In term of class category, secondary level had slightly higher prevalence of overweight [14.4% (95% CI: 12.64, 16.37) compared with primary level [13.8% (95% CI: 9.74, 19.09)].

For the prevalence of obesity (BMI-for-age: $> +2SD$), the state prevalence was 9.9% (95% CI: 8.01, 12.11); lower than national prevalence [14.8 (95% CI: 14.00, 15.73)]. Between strata, urban strata showed higher prevalence of obesity [10.2% (95% CI: 7.42, 13.83)] than rural strata [9.6% (95% CI: 7.28, 12.54)]. Comparing between sexes, boys had higher prevalence of obesity [12.8% (95% CI: 10.27, 15.80)] than girls [6.9% (95% CI: 5.29, 9.04)]. In term of class category, 11.9% (95% CI: 8.72, 16.13) primary level were obese compared to secondary level 8.5% [(95% CI: 6.75, 10.64)].

3.2.5 Conclusion

The prevalence of stunting for adolescents aged 10 to 17 years in Sabah was 11.9%. On the other hand, the prevalence of overweight and obesity among these adolescents were 14.1% and 9.9% respectively. In contrast, 5.9% of these adolescents were found to be thin. High demand of energy and nutrient are very important for physical growth and development at this age. Therefore, the concept of healthy eating and living should be practised at younger age to ensure healthy physical and mental development and subsequently to reduce the prevalence of stunting, thinness, overweight and obesity.

3.2.6 Recommendation

Thinness, overweight and obesity among adolescents aged 10 to 17 years in Sabah need to be addressed . Various agencies have to take the initiative to set up plan of action to overcome this problem. Healthy eating and living concept should be carried out at an earlier

age. It can be implemented by develop pro-health policies and regulation to create health promoting environment in work place, school, public areas and even at homes.

One of the suggested initiatives that involve collaboration between Ministry of Health and Ministry of Education is to empower Parents and Teachers Association in school to disseminate and implement healthy eating programs in schools. This can provides the concept of healthy eating and living to the children during schooling time and further practise and implement it at home and daily life. Eventually, it hopes to reduce the prevalence of thinness, overweight and obesity in the country.

Anthropometry is the measurement of physical dimensions such as height or weight, as well as the fat mass composition of the human body to provide information about a person's nutritional status. An index is a combination of two anthropometric measurements or an anthropometric measurement plus age. Anthropometry is a practical and immediately applicable technique for assessing a person's developmental patterns.

3.3 Perception on body weight management Adolescent (Primary 4 To Secondary 5) In Sabah

Contributors: Nur Shahida Abdul Aziz, Safiah Md.Yusof, Rohana Yaakof, Ruby Zainureen, Noor Ani Ahmad, Norlida Zulkafly, Rashidah Ambak

3.3.1 Introduction

Body weight perception refers to the personal evaluation of one's weight as "underweight" or "normal weight" or "overweight" irrespective of actual body mass index. Adolescent estimation of weight status may reflect an adolescent's perception of where they are on the spectrum of body weight relative to their peers.

3.3.2 Objectives

General objective:

To assess self-perception on body weight and intentions on weight management among Malaysian adolescents aged 10 to 17 years

Specific Objectives

- I. To determine body weight perception among adolescents
- II. To determine body weight perception among adolescents in comparison to actual BMI- for-age status
- III. To describe intended action on their perceived body weight status
- IV. To describe motivating factors to change their body weight.
- V. To identify preferred options to change their body weight.

3.3.3 Variable definition

- **Body weight perception:** An interpretation or impression; an opinion or belief
- (Ref: Collins English Dictionary – Complete and Unabridged, 12th Edition 2014 © HarperCollins Publishers 1991, 1994, 1998, 2000, 2003, 2006, 2007, 2009, 2011, 2014)
- **Actual body weight:** Body weight that was measured during the survey.
- **Misperception:** - a wrong perception

(Ref: (Collins English Dictionary – Complete and Unabridged, 12th Edition 2014 © HarperCollins Publishers 1991, 1994, 1998, 2000, 2003, 2006, 2007, 2009, 2011, 2014)

3.3.4 Findings

Overall, 39.6% (95%CI:37.26,41.89) of the adolescents in Sabah perceived that they had normal weight and 39.6% (95%CI:34.94,44.36) adolescents perceived they were thin. Rural adolescents had a higher perceptions of being normal weight; 41.0% (95%CI: 38.21, 43.83) compared to adolescents in urban areas, 37.9% (95%CI: 34.51, 41.46). Girls had a higher perception of being normal weight at 40.8% (95%CI: 38.37, 43.37) compared to boys at 38.3% (95%CI: 34.52, 42.18). Girls also had a higher perception of being overweight at 22.7% (95%CI: 18.73, 27.26), compared to boys at 14.4% (95%CI: 11.41, 17.95) (**Table 3.3.1**).

Among the actual normal, 45.3% (95% CI: 42.0, 48.7) correctly perceived their weights to be normal, 42.3% (95% CI: 37.4, 47.40) underestimated their body weights, perceived to be thin, 11.5% (95% CI: 9.2, 14.4)and 0.9% (95% CI: 0.4,1.6) overestimated to be overweight and obese respectively. However, among the actual overweight; 38.7% (95% CI: 29.4, 48.9) correctly perceived their weights to be overweight. In addition, 25.5% (95% CI: 19.5, 32.6) and 32.0% (95% CI: 25.8, 38.9) underestimated their body weights to be thin or normal respectively (**Table 3.3.2**).

Among all the adolescents who correctly perceived thinness and had actual thin body weights, 64.0% (95% CI: 51.88, 74.54) reported they wanted to increase weight. While adolescents who perceived overweight and actual overweight, 82.9% (95% CI: 75.01,88.64) planned to lose their weights. There were no significant different in school locality, gender and school category among adolescent who correctly perceived thinness and overweight between four category of actions taken (**Table 3.3.3**).

However, adolescents who had misperception, i.e. perceived thinness but actually in overweight and obese categories, most of them 53.3% (95% CI: 42.09, 64.27) wanted to lose weight while 14.2% (95% CI: 9.98, 19.82) wanted to increase their weights. The prevalence of adolescents who wanted to lose weight was higher in rural areas [60.5% (95% CI: 45.42, 73.85)], boys [53.7% (95%CI: 41.26, 65.63)] and secondary school students [55.4% (95% CI: 43.24, 66.94)] (**Table 3.3.4**).

About 68.0% (95% CI: 62.38, 73.16) of the adolescents answered health purpose as the main factor that motivate them to lose weight followed by increase self-confidence [21.7% (95% CI: 16.74, 27.72)]. Beauty was the main factor to lose body weight among girls, 10.7% (95% CI: 8.23, 13.70) (**Table 3.3.5**).

Health was the main factor to motivate adolescents to increase body weight 61.6% (95% CI: 56.25, 66.77), followed by increase self-confidence 24.3% (95% CI: 19.69, 29.52) (**Table 3.3.6**).

Exercise was the preferred option to lose body weight 64.1% (95% CI: 59.96, 68.11). Adolescents in urban areas [64.5% (95% CI: 57.19, 71.23)], [boys, 72.0% (95% CI: 67.00, 76.45)], primary school students [67.3% (95% CI: 60.86, 73.11)] had the highest percentages of choosing exercise as their option to lose body weights (**Table 3.3.7**).

Increase quantity of food was the preferred option by adolescents to increase their body weights, 52.6% (46.09, 59.00). Adolescents in urban areas, 53.5% (95% CI: 42.81, 63.81), girls 55.4% (95% CI: 45.01, 65.27) and secondary school students 58.9% (51.89, 65.57) had the highest percentages to increase quantity of food as a preferred option to increase body weights (**Table 3.3.8**).

3.3.5 Discussion/Conclusion

Perception of being normal weight among adolescents in Sabah (39.6 %) was lower than the national prevalence at 41.4%.

Among the actual thin adolescents in Sabah, 78.4% had correctly perceived thin, and higher compared with the national prevalence, 69.9 %. Almost half of the adolescents (45.3%) with actual normal body weight correctly perceived their weights to be normal compared to national prevalence 50.2%.

The main factors to lose body weight among adolescent in Sabah were similar with the findings at national level; health (68.0%), as increase self confidence (21.7%), beauty (8.1%) and to have more friends (2.1%).

Health purpose is the highest 61.6 % main factor to increase body weight . But it was higher compared with the national prevalence. Its followed by to increase self confidence 24.3% , beauty purpose 10.6% and to have more friends 3.5%.

Adolescents chose exercise as their preferred option to lose weight. This prevalence was slightly higher compared with the national prevalence , 64.1% and 62.5% respectively. Other options were: reduced comsumption of high fat foods 22.3%, increase intake of fruits and vegetables 4.6 % and reduce intake of high sugar foods 4.3%. These findings were comparable with the findings at the national level.

More than half (52.6%) of the adolescents in Sabah chose to increase quantity of food as the preferred option to increase body weight. The prevalence was comparable with the national prevalence,(52.4%).

3.3.6 Recommendation

Body weight perception is a rather complex concept affected by `ideal` as well as `normative` body image. Our adolescents live in a society where increasingly larger proportions of the population are overweight and obese. They are surrounded by overweight and obese peers, hence leading to them developing an inaccurate perception of healthy body weight or image. On the other hand, mass media often portray unusually thin models, especially among females, emphasizing` thin` rather than `healthy` body shapes.

Findings from this study should be utilised by relevant programme managers. Intervention to promote healthy lifestyles should be one of the approaches undertaken to halt this problem from worsening. Nutrition education should be systematically conducted in all school, utilizing educational modules. Parents should act as role models and be actively involved in all efforts to promote healthy eating and active living among children. The media should also play an important role by broadcasting more information targeting adolescents and families about healthy eating and active lifestyles.

In addition, a school-based health promotion programme incorporating a holistic curriculum may prove to be a good platform to tackle body image problems, encourage good eating habits and instil healthy body image amongst adolescents.

3.4 Meal pattern among adolescents (Primary 4 to Secondary 5) in Sabah

Contributors: Mohamad Hasnan Ahmad, Ling Swee Nian, Nur Ili Mohamad Tarmizi, Ainan Nasrina Ismail, Mahenderan Appukutty, Rusidah Selamat, Azli Baharudin, Ruhaya Salleh

3.4.1 Introduction

The term ‘meal patterns’ is often used to describe individuals’ eating patterns at the level of a ‘meal’, such as a main meal (for example, breakfast, lunch or dinner) or a smaller-sized meal (for example, supper or snack). It can be described in three constructs, which is patterning (frequency, spacing, regularity, skipping, timing), format (types of food combinations, sequencing of foods, nutrient profile/content); and context (eating with others or with the family, eating in front of the television or out of the home). Understanding the ways in which different meal patterns make an impact on diet quality is very important as it can affect the growth of individuals and elucidate important diet–disease relationships, especially among adolescents. Therefore, meal pattern based approach could complement current nutrition advice to enhance healthy eating campaign strategies.

3.4.2 Objective

General objective:

To determine the meal pattern of adolescents in Malaysia (Primary 4 to Secondary 5).

Specific objectives:

- To determine the prevalence of consumption of individual main meals (breakfast, lunch, dinner) and intermeal (during recess, afternoon tea and heavy meal after dinner).
- To identify the sources of food and/or drink consumed for main meals (breakfast, lunch, dinner) and intermeals (during recess, afternoon tea and heavy meal after dinner).
- To identify reasons for skipping main meals (breakfast, lunch and dinner).
- To determine the prevalence of practice of bringing food or drinks to school.
- To identify common types of food or drink brought to school.
- To determine the prevalence of eating out among adolescents.
- To determine the prevalence of snacking and practice of buying snack out of school area.
- To identify common type of snacks consumed and bought out of school area.
- To identify source of media that affect meal pattern among adolescents.

3.4.3 Variable Definition

- **Main meal:** the traditional meal; breakfast, lunch, dinner.

- **Breakfast:** defined as the first food taken after waking from sleep, food intake in the early morning, between 6.00 am to 8 am.
- **Lunch:** defined as food consumed or meal between 11.00 am to 3.00 pm.
- **Dinner:** defined as foods consumed or meal between 6.00 pm to 10.00 pm.
- **Afternoon tea:** defined as food and/ or drinks taken between lunch and dinner, between 3.00 pm to 6.00 pm.
- **Heavy meal after dinner:** food taken at night after dinner and after 10.00 pm. Examples of foods that are considered heavy meal is high calorie food such as *nasi lemak*, *roti canai*, fried mee, burger, fried chicken and etc. It does not include two small snacks like crackers and/or a glass of milk.
- **Skipping meal:** the omission or lack of consumption of one or more of the traditional main meals (breakfast, lunch or dinner) throughout the day.
- **Dieting:** to limit food intake in terms of the amount of frequency of eating for weight loss purposes.
- **Fast food:** including ready-to-eat foods. Ready-to-eat foods are foods that can be eaten immediately after purchase. It consists of cooked food, hot or cold foods and foods that can be eaten without further cooking or heating.
- **Snacking:** consumption of energy outside of traditional meals such as breakfast, lunch, and dinner.
- **Eating during school break time:** Eating time between the intervals of classes after school started.
- **Eating out:** either eating at restaurant or hawker stall, and does not include buying outside food and eat at home.
- **Snack food:** snack food such as bun, biscuits, fruits, nuts, crackers, ice cream, junk foods, pickles, flavored/carbonated drink, fries/ nugget/sausage, candy or chocolate.

3.4.4 Findings

A total of 2,322 respondents representing 330,463 adolescents in Sabah were selected to participate in the study. The study showed that the percentage of adolescents taking breakfast (35.1%; 95% CI: 29.72, 40.81) on daily basis were low compared to lunch (46.1%; 95% CI: 39.54, 52.83) and dinner (58.1%; 95% CI: 51.23, 64.73). Most of them preferred to consume homemade foods especially for breakfast and dinner. The main reason for skipping their main meals was no appetite. About 64.6% (95% CI: 59.56, 69.33) of them ate and drank

during recess every day on weekdays. Most of the foods (65.6%; 95% CI: 59.06, 71.64) were obtained from school canteens. Majority of the adolescents took afternoon tea and heavy meals after dinners for 1 to 6 days a week; 59.0% (95% CI: 53.77, 64.05) and 68.9% (95% CI: 63.20, 74.16) respectively. About 26.4% (95% CI: 23.34, 29.78) of the adolescents took their heavy meals after dinner at restaurant/kiosk. Fast food was frequently consumed by 83.0% (95% CI: 79.60, 86.01) of the adolescents for 1 to 6 days per week. The survey revealed that the practice of bringing foods and drinks to school daily was 12.7% (95% CI: 9.35, 17.08) and 45.2% (95% CI: 39.68, 50.79). The most popular food frequently brought to school is followed by nasi lemak/fried rice/mixed rice (41.6%; 95% CI: 33.11, 50.62) whereas 86.1% (95% CI: 82.59, 88.96) claimed they usually brought plain water. About 67.0% (95% CI: 62.69, 70.99) of the adolescents spent their pocket money to buy food/drinks. It was found that they occasionally eat out as most of the adolescents reported they were eating out around 1 to 3 times per week. In terms of snacking, most adolescents snacking around 1-3 times per week and the categories of food with the highest consumption were bread/ bun/ sandwich, fish cracker and biscuit. Most of them also bought snack food and/or drink out of school areas 1 to 4 times per week with the highest preference of flavoured drink/carbonated drink (21.6%; 95% CI: 17.62, 26.27). Television and social media constituted the highest percentage of media sources which affected dietary pattern among adolescents in Sabah; which was 36.7% (95% CI: 32.90, 40.64) and 36.3% (95% CI: 33.17, 39.63) respectively.

3.4.5 Discussions/Conclusion

The study revealed that adolescents in Sabah tend to skip main meals especially for breakfast. Did not have appetite and no time to take meals were the main reasons adolescents in Sabah skipped their breakfast and other main meals. The benefit, priority on taking main meals and the misunderstanding knowledge on reducing body weight need to be educated to the adolescents in order to achieve and maintain better health status. Importance of good hydration should also be emphasized to the adolescents as the percentage of those practising bringing water to school is very low. It was found that the adolescents had unhealthy dietary practices; this included having heavy meals after dinner at least once a week, consumption of fast foods and high caloric meals bought outside their schools. Thus, further regulations regarding the sales of food/drink outside school compounds should be strengthened and creative healthy dietary practice messages targeting adolescents should be communicated through the main media such as television and social media.

3.4.6 Recommendation

Taken together from the survey, several recommendations were proposed. Advocacy on proper meal pattern practice among adolescent is crucial therefore, a holistic and comprehensive nutrition intervention should be implemented nation-wide, where every stakeholders need to work together. A generation of healthy adolescents is warranted for a healthy nation. Since most of the adolescents are school-aged individuals, therefore, more

health promotion such as healthy eating habits at home, in school and eating out must be addressed systematically. Positive behavioral changes on dietary pattern need a longer time to be materialised but the support and intervention must be continuous. Ministry of Health and Ministry of Education together with the support and co-operation from Parents and Teachers Association, as well as professional bodies (Nutrition Society of Malaysia, Malaysian Dietitians' Association, Malaysian Association for the Study of Obesity) that are related to diet and lifestyle should work hand-in-hand to educate and empower the adolescents on proper daily nutritional intakes especially on main meals.

3.5 Physical activity among adolescents (Primary 4 To Secondary 5) In Sabah

Contributors: Nor Azian Mohd Zaki, Hazizi Abu Saad, Shahrulnaz Norhazli Nazri, Mohd Azahadi Omar

3.5.1 Introduction

Physical activity is defined as any bodily movement produced by skeletal muscle that requires energy expenditure. According to World Health Organization (2010) and Malaysian Dietary Guidelines for Children and Adolescents (NCCFN, 2013), children and adolescents should accumulate at least 60 minutes or more of either moderate or vigorous intensity activity daily. Ideally, daily screen time should not more than two hours a day and children and adolescents should not be sedentary for more than 60 minutes at a time.

3.5.2 Objectives

The general objective of this study was to assess physical activity pattern of Malaysia adolescents and the specific objectives were as follows:

- To determine the physical activity level.
- To evaluate the most five preferred physical activities during spare time.
- To assess the level of participation in physical education (PE) classes.
- To evaluate the duration of watching television, using computer and playing video games during weekend and schooling days.

3.5.3 Variable definitions

Physical Activity Assessment - The physical activity Questionnaire for Older Children (PAQ-C) was adapted from Kowalski et al (2004) to assess the general level of physical activity of the adolescents.

Physical Activity Classifications - The total mean scores of PAQ-C was classified into three categories of either 'low physical activity' (Score: 1.00-2.33), 'moderate physical activity' (Score: 2.34-3.66) or 'high physical activity' (Score: 3.67-5.00).

Screen time - Screen time refers to the time spent on screen-based behaviours. For example: Watching television, playing video games and using the computer or surfing the internet.

3.5.4 Findings

The PAQ-C mean score for the physical activity level for adolescent in Sabah was 2.33 (95% CI: 2.23, 2.42) (**Table 3.5.1**). Overall, a total of 45.6 % (95% CI: 39.52, 51.89) adolescents were physically active and 54.4% (95% CI: 48.11, 60.48) of them were not active. In terms of school locality, the prevalence of students who were active in urban area were 47.9% (95% CI: 38.55, 57.42) and from rural areas were (43.6% (95% CI: 35.93, 51.60)). The prevalence of physically active was significantly higher among boys (53.8% (95% CI: 47.70, 59.82) compared to girls, 37.4% (95% CI: 30.47, 44.84)). By school level, primary students [(60.5% (95% CI: 55.33, 65.46))] showed higher prevalence of physically active than secondary students [(35.9% (95% CI: 32.84, 39.15))]. In term of BMI-for-age status, there was no significant difference of physically active among thinness [32.7% (95% CI: 24.19, 42.59)], normal [46.4% (95% CI: 40.76, 52.13)], overweight [46.7% (95% CI: 36.25, 57.36)] and obese [45.8% (95% CI: 33.95, 58.19)] (**Table 3.5.2**).

The most popular spare-time physical activity according to percentage of adolescents in Sabah were walking for exercise [82.5% (95% CI: 79.93, 84.76)] (**Table 3.5.3**). The prevalence of students who reported did not attend/very rare participated in PE class was 21.6% (95% CI: 18.53, 25.12)] (**Table 3.5.4**). During school days, 29.3% (95% CI: 26.09, 32.72) of adolescents watched television, using computer and playing video games more than 2 hours per day (**Table 3.5.6**). Meanwhile, 42.2% (95% CI: 37.89, 46.60) of the adolescents engaged on these activities more than 2 hours during weekend (**Table 3.5.5**).

3.5.5 Discussion

The prevalence of physically active among adolescents in Sabah (45.6%) was slightly higher than the national prevalence (44.6%). The prevalence of physically active was significantly higher among boys and primary students than girls and secondary students. There was no significant difference in terms of school locality and BMI of age status of the respondents. The prevalence of adolescents that engaged on screen activities more than 2 hours during was higher during weekends than school days.

3.5.6 Conclusion

Based on National Health and Morbidity Survey (2017), 54.4% of children and adolescents in Sabah were physically inactive. The prevalence of physically inactive among Malaysian adolescents was slightly decreased as compared to the Malaysian School-Based Nutrition Survey (2012), but remained high. Therefore, more programmes and strategies to increase physical activity should be implemented among children and adolescents in Malaysia.

3.5.7 Recommendations

Adolescents should be encouraged to be more active in their daily life. Policy and campaign to promote physical activity among children and adolescents should be enhanced. In addition, health promotion activities to increase physical activity should be promoted. A comprehensive surveillance system for monitoring physical activity should be developed to ensure compliance with physical activity recommendation among children and adolescents.

Parents should be encouraged to be good role models; be active, limit the amount of sedentary and screen time behaviours, and monitor physical activity sedentary behaviours as well as screen time of their children. Interviewing technique for physical activity assessment should be applied in future study. Adolescents should be encouraged to get physically active in their daily life. Formulating specific program and intensifying health campaign are essential to promote physical activity among children and adolescents. Developing surveillance systems for physical activity enables compliance based on the standard recommendations. Parents should instil active lifestyle, limit the amount of sedentary and screen time behaviors for their children. Improving technique for physical activity assessment is necessary.

3.6. Supplements intake among adolescents (Primary 4 to Secondary 5) in Sabah

Contributors: Fatimah Othman, Sam Azura Ahmad, Syafinaz Mohd Sallehuddin, Mohamad Ihsan Tahir, Safiah Mohd Yusof, Nur Azna Mahmud

3.6.1 Introduction

Dietary supplements are defined as “a product (other than tobacco) intended to supplement the diet that bears or contains one or more of the following dietary ingredients: a vitamin, a mineral, an herb or other botanical, an amino acid, or a dietary substance for use by man to supplement the diet by increasing the total dietary intake, or a concentrate, metabolite, constituent, extract, or combination of the above ingredients” (DV Porter, 2001). The use of supplements becomes common behavior among people due to general health concerns. In 2014, approximately 54.1% and 40.2% of Malaysian adolescents consumed vitamin/mineral and food supplements respectively (Sien, Shahril, Mutalip, 2014). This prevalence was found to be higher than that in other countries (Picciano, Dwyer, Radimer, 2007; Yoon, Park, Kang, 2009; Sichert-Hellert and Kersting, 2004).

High dietary supplement intake suggests a wide use of dietary supplements among adolescents despite the unclear guideline or recommendation on dietary supplements. The long-term potentially dangerous effects related to unrestrained consumption of dietary supplements are still unknown and are becoming a matter of public health concern. Reports on dietary supplements intake pattern among Malaysian adolescents are limited. Therefore, the aims of the current study were to assess the frequency, reasons and types of vitamin/mineral and food supplement use among Malaysian adolescents.

3.6.2 Objectives

General objective

To determine the pattern of use of vitamin/mineral and food supplements among Malaysian adolescents.

Specific objective

- To determine the most commonly consumed vitamin/mineral supplements.
- To determine the most commonly consumed food supplements.
- To identify the reason(s) of taking vitamin/mineral supplements.
- To identify the reason(s) of taking food supplements.
- To determine the frequency of vitamin/mineral supplements intake.
- To determine the frequency of food supplements intake.

3.6.3 Findings

The prevalence of vitamin / minerals and food supplements intake among adolescents in Sabah was 47.8% (95% CI: 41.18, 54.43) (**Table 3.6.1**) and 31.5% (95% CI: 27.07, 36.29) (**Table 3.6.5**). In average, the vitamin/mineral and food supplements were consumed everyday by 17.6% (95% CI 14.08, 21.66) and 12.3% (95% CI 9.56, 15.80) of adolescents (**Table 3.6.4, Table 3.6.8**). The most commonly consumed vitamin / minerals and food supplements were Vitamin C 36.1% (95% CI: 30.81-41.69) (**Table 3.6.2**) and bee product 11.4% (95% CI: 9.12, 14.10) (**Table 3.6.6**). The main reason for taking vitamin / minerals and food supplements was due to parent's advised 41.9 % (95% CI: 36.8, 47.1) (**Table 3.6.3**) and 26.4% (95% CI: 22.9, 30.1) (**Table 3.6.7**).

3.6.4 Discussions

The prevalence of taking vitamin/minerals and food supplements among adolescence in Sabah was higher than the national prevalence, which was 44.7% (95% CI: 42.49-46.91) and 30.6% (95% CI: 28.90-32.43). The consumption of Vitamin C and Bee Product were significantly higher compared with the other types of vitamin / mineral and food supplement and these findings were consistent with national findings. Finding from the survey showed that parent's advice was the main and significant reason for taking vitamin/mineral and food supplements among adolescents; i.e. parents were strong influencer for food supplement and vitamin intake of adolescents.

3.6.5 Conclusions

Overall findings from this survey showed that almost half and one third of adolescents in Sabah consumed vitamin/mineral and food supplements respectively. A quarter and one third of parents influenced their children's intake of vitamin/ mineral and food supplements respectively. Vitamin C and Bee product remained the main type of vitamin and food supplement consumed by adolescents in Sabah.

3.6.6 Recommendation

Advocating adolescents to eat balanced and healthy meals is the main priority in designing health policy. However, the Ministry of Health should also establish guidelines, regulations, and policy of food supplements and vitamin/mineral intake as its consumption has become common among Malaysian adolescents. There is a need for further scientific research involving adolescents with the purpose of assessing the beneficial effects and safety of its long-term use. The guidelines and regulations should be made clear to parents and guardians for appropriate use of food supplements.

3.7 Food and nutrition labeling among adolescents (Secondary 1 To Secondary 5) in Sabah

Contributors: Ruhaya Salleh, Ruzita Abd Talib, Lai Wai Kent, Noor ul-Aziha Muhammad, Mohamad Hasnan Ahmad, Lalitha Palaniveloo, Rashidah Ambak, Hazizi Abu Saad, Shubash Shander a/l Ganapathy

3.7.1 Introduction

Recognizing the need for more effective regulation of the nutrition labels and claims on food packages, the Ministry of Health Malaysia (MOH) gazetted amendments to Food Regulations 1985 in 2003 (MOH, 1985). MOH has also gazetted and enforced Regulations on Nutrition Labelling and Claims. Regulations has been introduced whereby manufacturers are required to describe the nutritional qualities of a food product factually and informatively.

Nutrition information on food labels are used to assist in choosing food choices. The implementation of Front-of-Pack (FOP) labelling is listed as one of the current nutrition programs and activities in the National Plan of Action for Nutrition of Malaysia III, 2016-2025. Food and nutrition labelling are designed to provide consumers on various information when choosing food. Food and nutrition labelling in this survey include food labelling, FOP labelling, nutrition information panel (NIP) and nutrition labelling. Food labelling includes any written, printed or graphic matter that is presented on the label, accompanies the food, or is displayed near the food, including that for the purpose of promoting its sale or disposal. NIP declares the nutrients as a table in one section of a food label. In addition, nutrition labelling describes the nutrient content of a food product and this may assist the consumers in making better food choices when planning their daily meals. Thus, food and nutrition labelling has been recognized as one of the strategies to encourage people to adopt healthy eating practices. . There is no national data in Malaysia on prevalence of food label reading among Malaysian children and teenagers. Therefore, this survey was conducted to determine the prevalence of reading and their understanding on food and nutritional labelling among adolescents in Malaysia.

3.7.2 Objectives

3.7.2.1 General objective

To determine the prevalence of reading food and nutrition labeling among adolescents (Form 1 to Form 5)

3.7.2.2 Specific objectives:

1. To determine the prevalence of reading food label when buying or receiving food/drink.
2. To determine the reason(s) for not reading food labels.

3. To determine the types of nutrition fact information (energy, carbohydrate/ sugar, fat, protein, sodium, vitamin, mineral and fiber content) that was read from the food label.
4. To determine the types of information (expiry date, nutrition facts, halal logo, food ingredients, storage instruction) that was read on the food label.
5. To determine the understanding of nutrition labelling (nutrition facts and front of pack).
6. To determine the knowledge on the most and least content of ingredients based on the list of food ingredients.

3.7.3 Variable definitions

There were three classifications used in this study.

- a. Always: read food labels every time when buying or receiving food/drinks
- b. Sometimes: occasionally or once in a while read food labels when buying or receiving food/drink
- c. Never: did not read food labels at all.

Food label

- A food label includes any tag, brand, mark, pictorial or other descriptive matter, written, printed, stenciled, marked, painted, embossed or impressed on, or attached to or included in, belonging to, or accompanying any food. (Malaysia Food Regulations 1985).

Front of Pack (FOP) labels

- Simplified nutrition information on the front of the package, in varied forms.

Nutrition information panel/ Nutrition facts

- The nutrition information panel or NIP is a table found in one section of a food label declaring the amount of nutrients contained in the food.

Nutrition labelling

- A nutrition label is a listing of the level of nutrient(s) as displayed on the food label. It is meant to provide factual information about the nutritional content of the product.

3.7.4 Findings

3.7.4.1 Prevalence of reading food labels when buying or receiving food/drink among adolescents in Sabah

More than one third [35.1% (95%CI: 30.51,39.93)] of the adolescents reported always reading food labels when buying or receiving food; 48.5% (95%CI: 43.55, 53.51) reported reading food labels sometimes and 16.4% (95%CI: 13.87,19.31) reported as never read food labels (**Table 3.7.1**). Among those reported as always reading food labels, boys [37.2% (95%CI: 31.43,43.29] showed slightly higher percentage compared to girls [33.0% (95%CI: 27.56, 38.94)].

3.7.4.2 Reasons for not reading food and nutrition labelling among adolescents in Sabah

Among those who did not read food labels, the main reasons for not doing so were: the food labels were not interesting [33.4% (95%CI: 24.80, 43.36)], followed by did not understand food labels [17.1% (95%CI: 11.49,24.65)] and time constraint [14.6% (95%CI: 9.79,21.20)]. The results also revealed that among those] who were already aware of food label information [13.4% (95%CI: 10.14, 17.48)], 12.9% (95%CI: 7.8.63.18.73) felt that the size of the print was too small and 11.8% (95%CI: 6.66,19.98) did not know the importance of food labels (**Table 3.7.2**).

3.7.4.3 Types of nutrition information (energy, carbohydrate/ sugar, fat, protein, sodium, vitamin, mineral and fiber content) that were read from food labels.

Among those who read the nutrition information, the four most common types of nutritional information being read were total energy content [35.1% (95%CI: 32.20,38.02)], carbohydrate content (including sugar) [32.0% (95%CI: 28.11,36.20)], fat content [31.3% (95%CI: 26.06,37.11)] and protein content [19.5% (95%CI: 15.74, 23.91)]. It was followed by vitamin content [20.1% (95%CI: 15.65,25.44)], mineral content [6.9% (95%CI: 5.01,9.48] sodium content [6.7% (95%CI: 4.71,9.41)]and the least were fiber [6.7% (95%CI: 5.13,8.70)] (**Table 3.7.3a** and **Table 3.7.3b**)

3.7.4.4 Types of information (expiry date, nutrition claim, nutrition facts, halal logo, food ingredients and storage instruction) read from the food labels.

Based on types of information (expiry date, dietary declaration (nutrition claim), nutrition facts, halal logo, food ingredients, storage instruction) that were read on food labels, most of the adolescents read expiry date [72.9% (95%CI: 65.44,79.32)], followed by halal logo [30.5% (95%CI: 23.93, 37.99)], food ingredients [20.5% (95%CI: 15.05,27.33), nutrition fact [20.0% (95%CI: 15.84,24.99)], dietary declaration (nutrition claim) [12.8% (95%CI: 10.04,16.23)] and storage instruction [11.5% (95%CI: 7.97,16.30)] (**Table 3.7.4**).

3.7.4.5 Understanding of nutrition facts among adolescents in Sabah

Overall, 49.6% (95%CI: 42.99,56.17) and 45.9% (95%CI: 39.91, 52.09) of the adolescents had given correct responses to the question assessing interpretation of the energy and sugar contents based on the nutrition facts given. While only 33.8% (95%CI: 27.27,40.92)] correct responses answer for both energy and sugar (**Table 3.7.5**).

3.7.4.6 Understanding of front of pack labelling among adolescents in Sabah

Overall, 23.4% (95%CI : 24.31, 35.17] and 39.8% (95%CI: 35.18,44.51) of the adolescents had correct responses to the question assessing interpretation of the energy content and question assessing interpretation of the percentage of energy content based on the front of pack labelling . However, only 17.8% (95%CI: 13.79, 22.60)] had correct responses to questions assessing interpretations of both energy content and the percentage of energy content based on the front of pack labelling (**Table 3.7.6**).

3.7.4.7 Understanding of the most and least used ingredients based on the list of food ingredients among adolescents in Sabah

Overall, 48.2% (95%CI: 42.34 ,54.07) of the adolescents had given correct responses to the question assessing interpretation on the most used ingredient in the food based on the list of ingredients given. Girls [54.5% (95%CI: 47.65,61.24)] reported a higher prevalence of interpreting correctly as compared to the boys [41.5% (95%CI: 35.26,48.10)]. While, 18.9% (95%CI: 16.56,21.42) of adolescents had given correct responses to the question assessing interpretation of the least used ingredient in the food based on the list of ingredients given. However, the results showed a low level of correct responses [6.6% (95%CI: 5.06,8.54)]to questions assessing interpretations of both the most and the least used ingredients based on the list of ingredients (**Table 3.7.7**).

3.7.5 Discussion/Conclusion

This study provides useful information about the prevalence of reading food and nutrition labelling among adolescents in Sabah. Adolescents reported a lower prevalence of not reading food label. Continuous education regarding understanding the food and nutrition labelling, not limited to the expiry date, but also the nutritional content and the benefits of front of pack labelling and nutrition information fact is necessary. Thus, we need to be creative in education and promotion to ensure that adolescents know how to interpret the overall information that is stated at the food and nutrition labelling before choosing packaged food and drinks. In this survey, low prevalence of knowing how to determine the most and least used ingredients based on the list of food ingredient by the adolescents in sabah.

3.7.6 Recommendations

The findings provide significant information for the policymaker and health authorities to plan nutrition education and promotion programme to create awareness and knowledge on benefits of reading food and nutrition labelling. Awareness and continuous effort to better understand the food and nutrition labelling should be inculcated within all nutrition intervention programmes.

APPENDICES

Appendix 1: Members of Steering Committee NHMS 2015-2018

1. Director General of Health
2. Deputy Director General of Health (Public Health)
3. Deputy Director General of Health (Medical)
4. Deputy Director General of Health (Research & Tech Support)
5. Director, Oral Health Division
6. Director, Pharmaceutical Services Division
7. Director, Food Safety and Quality Programmed Division
8. Director, Medical Development Division
9. Director, Planning Division
10. Director, Health Education Division
11. Director, Disease Control Division
12. Director, Family Health Development Division
13. Director, Nutrition Division
14. Representative of State Directors
15. Director, Institute for Public Health
16. Dean Faculty of Medicine, University of Malaya
17. Dean Faculty of Medicine, National University of Malaysia
18. Principle Investigator, NHMS

Appendix 2: Term of Reference for NHMS 2015-2018 Steering Committee

1. To approve the objectives and scopes of NHMS 2015-2018.
2. To facilitate inter and intra sectorial collaboration.
3. To monitor the implementation of the NHMS 2015-2018.
4. To facilitate the utilisation of the NHMS 2015-2018 findings.

Appendix 3: List of members of Central Coordinating Committee, NHMS 2017

1. Dr Hj Tahir bin Aris, Director of Institute for Public Health
2. Dr Muhammad Fadhli bin Mohd Yusoff, Coordinator of NHMS 2015-2018
3. Dr. S Maria binti Awaluddin, Principal Investigator of Adolescent Health Survey
4. Pn. Ruhaya binti Salleh, Principal Investigator of Adolescent Nutrition Survey
5. En. Mohamad Aznuddin bin Abd Razak, Principal Investigator of Healthy Mind Screening using DASS
6. Dr Mohd Azahadi bin Omar, Head Data Processing and Data Management
7. Dr Noor Ani binti Ahmad, Central Field Supervisor of Perlis & Kedah
8. Dr. Nor Asiah binti Mohamad, Central Field Supervisor of Johor, Melaka & Negeri Sembilan
9. Dr. Rajini a/p Sooryanarayana, Data Processing & Quality
10. Pn. Tee Guat Hiong, Central Field Supervisor of Sarawak
11. Dr. Nur Liana binti Ab. Majid, Central Field Supervisor of WP Kuala Lumpur, WP Putrajaya & Selangor
12. Cik Hasimah binti Ismail, Central Field Supervisor of Pahang, Kelantan & Terengganu
13. Pn. Norzawati binti Yeop, Central Field Supervisor of Perak & Kedah
14. Pn. Norazizah binti Ibrahim Wong, Data Processing & Quality
15. En. Mohd Hazrin bin Hasim @ Hashim, Central Field Supervisor of WP Labuan & Sabah
16. Pn. Lalitha a/p Palaniveloo, Person in charge for 24Hour Dietary Intake
17. Pn. Siti Nor'Ain binti Hashim, Head of ICT Support
18. En. Lim Kuang Kuay, Logistic Support
19. Pn. Hamizatul Akmal binti Abd. Hamid, Project Manager
20. Pn Wan Shakira binti Rodzlan Hasani, Project Manager
21. Pn. Cheong Siew Man, Person in-charge for Habitual Food Intake
22. Pn. Nazirah Bt Alias, Data Processing & Quality
23. Dr. Fazila Haryati Ahmad, Data Processing & Quality

Appendix 4: Terms of Reference for NHMS 2017 Central Coordinating Team

| No | Team | Duties | Officers |
|----|--------------------------------|---|---|
| 1 | Project Management and Finance | Work closely with recruitment group for employment of RA Prepare Questionnaires manual, Data collection manual Meeting with Liason Officers Planning for data collection training Prepare security cards/name tags for research team Arrangement for advanced payment for team managers, nurses and drivers Process claims of MOH staff Prepare tickets for travelling Monitor the expenditure/budget | Dr. Muhammad Fadhli bin Mohd Yusoff Dr. S. Maria Binti Awaluddin Pn. Ruhaya binti Salleh Pn. Hamizatul Akmal binti Abd Hamid Pn. Wan Shakira binti Rodzlan Hasani Cik Nur Hazwani Binti Mohd Hasri |
| 2 | Survey Research Centre | Calculate the sample size Determine the sample distribution by state | Dr. Muhammad Fadhli bin Mohd Yusoff Pn. Norazizah binti Ibrahim Wong Pn. Wan Shakira binti Rodzlan Hasani |
| 3 | ICT Unit | Maintenance of the scanning machine Daily back up for databases | Pn. Siti Nor'ain Binti Hashim En. Sulaiman Bin Harun En. Yusmirol Bin Yusop En. Andy Bin Mustaming |
| 4 | Central Field Supervisors | <u>Before Data Collection</u> Central Field Supervisors are expected to prepare for the initiation of data collection. The preparation tasks include: | Dr Nor Asiah Binti Muhamad Dr Nur Liana Binti Ab Majid Pn. Norzawati Binti Yeop Dr. Noor Ani Binti Ahmad |

| | | |
|--|---|---|
| | <p>Conduct meeting with State Education Office, School Principals, Teacher in-charged for the selected schools.</p> <p>To ensure adequate logistic support for the data collection and liaise with the District Education Office, District Health Office and other relevant departments to ensure that:</p> <ul style="list-style-type: none"> • Human resources are available: Field Supervisors, Team leaders, Research Assistants and drivers. • Manage transport: Vehicles • Manage survey instruments and relevant form • Manage lodging for data collectors <p><u>During Data Collection</u></p> <p>Gather feedback from the field on the data collection status and problems related to logistics.</p> <p>Visit the field to help data collectors solve the problem if necessary.</p> <p>To ensure all data collection monitoring forms have been received on time.</p> <p>To ensure bundle from field received by the Operation Centre by hand and by post(Sabah, Sarawak, WP Labuan)</p> <p>Updating the monitoring board for state achievement and attending CCT meeting.</p> | <p>Pn. Appendix 7: Nutrition Questionnaires

TINJAUAN PEMAKANAN REMAJA 2017
மலேசிய பள்ளி மாணவர் உணவு முறை ஆய்வுக்கை 2017

BORANG SOAL SELIDIK

அனவரிக்கை

Pengenalan

Tinjauan ini dijalankan untuk mengetahui status pemakanan, amalan pemakanan, pengambilan makanan, tahap aktiviti fizikal, dan penggunaan label makanan dan pemakanan anda. Pelajar lain yang terpilih seperti anda di seluruh negara juga menjawab borang soal selidik ini.

Maklumat yang anda berikan akan digunakan untuk membangunkan program-program kesihatan yang lebih baik untuk generasi muda seperti anda.

அறிமுகம்

ஏந்த ஆய்வு உங்கள் உணவு பழக்கமுறைமற்றும் கொதாத்தின் அளவை கணக்கீடு பயன்படும். நம் நாட்டில் உள்ள அனைத்து மாணவர்களும் ஏந்த ஆய்வுக்கையில்பங்குபெறுகின்றனர்.

உங்கள் கொடுக்கும் தகவல்கள் நம் நாட்டில் உள்ள மாணவர்களின்டட்டு நினைவைப் பேச மிகவும் உதவும்.

Panduan mengisi borang soal-selidik

ஆய்வுக்கையை நிரப்ப வழிகாட்டுகள்

1. Jawapan yang anda berikan akan **DIRAHSIAKAN**. Jawab soalan-soalan berdasarkan apa yang tahu dan apa yang anda lakukan. Tidak ada jawapan yang betul atau salah.
உங்கள் கொடுக்கும் தகவல்கள் சம்மந்தம்பட்டோர் மட்டுமேபயன்படுத்துவது உங்களுக்கு தெரிந்த விடையூடு அளிக்கவும். சரிஅல்லதுபினும் சந்தூர்மட்டுமே விடையளிக்கக் கூடாது.
 2. Baca soalan dengan teliti. Hitamkan jawapan anda pada kertas jawapan yang disediakan dengan pensil 2B yang dibekalkan.
கொடுக்கப்பட்டுள்ள கேள்விகளை தெளிவாக படித்தப்பின் 2B எழுதுக்கோலால் விடைத்தானில் பதிலளிக்கவும்.
 3. Cara menghitamkan jawapan:
பதிலளிக்கும் முறை:

| | | |
|---|---|---|
| Hitamkan jawapan anda seperti ini ஏவ்வாறு கருமையாக்கவும் | <input type="radio"/> bukan seperti ini ஏவ்வாறால்ல | <input checked="" type="radio"/> ✗ atau அல்லது  |
|---|---|---|
4. Hanya satu jawapan bagi setiap soalan **KECUALI** ada arahan lain yang dinyatakan.
கொடுக்கப்பட்டுள்ள கேள்விகளுக்கு குறிப்பிடப்பட்ட உணவு விடையளிக்க வேண்டும்.
 5. Sekiranya anda tidak faham, sila angkat tangan untuk bertanyakan soalan semasa sesi menjawab soalan.
புரியாவிடில் உங்கள் கரத்தை உயர்த்தி அங்கிருக்கும் ஆசிரியரிடம் கேள்வி கேட்கலாம்.
 6. Apabila anda selesai menjawab, tunggu arahan daripada fasilitator yang menjaga kelas anda.
விடையளித்து முடித்தப்பின் ஆசிரியர் உங்கள் தால்களை வாங்கும் வரை பொருத்திருக்கள்.

Terima kasih di atas kesudian anda menjawab soal selidik ini.
ஏவ்வாறுவறிக்கையை விடையளித்துமைக்கு நன்றி

MODUL B : CORAK PEMAKANAN
தொகுதி B : உணவு பழக்கம்

Arahan : Pilih jawapan dan hitamkan pada kertas jawapan yang disediakan.

கட்டளை : சரியான விடையைத் தெரிவு செய்து கொடுக்கப்படுவது விடைத்தானில் கருமையாக்குக் .

- B1** Apakah sesi persekolahan anda?
 உங்கள்பள்ளி எச்சமையத்தில் நடைப்பெறும் ?
- A Sesi pagi sahaja / காலையில் மட்டும்
 B Sesi petang sahaja / மதியத்தில் மட்டும்
 C Sesi pagi sampai petang / காலை முதல் மாலை வரை
- B2** Kebiasaannya, dalam seminggu berapa hari anda mengambil sarapan (dari pukul 6.00 pagi hingga 8.00 pagi)?
 ஒரு வாரத்தில் எத்தனை முறை காலை சிற்றுண்டி உட்கொள்வீர்கள்? (காலை மணி 6.00- விருந்துகாலை மணி 8.00 வரை)?
- A 1 hari / 1 நாள்
 B 2 hari / 2 நாள்
 C 3 hari / 3 நாள்
 D 4 hari / 4 நாள்
 E 5 hari / 5 நாள்
 F 6 hari / 6 நாள்
 G 7 hari / 7 நாள்
 H Tidak berkaitan / Tidak ambil sarapan
 தொடர்பு அல்ல/காலை உணவு உட்கொள்வதில்லை
- B3** Kebiasaannya, dari mana anda dapat makanan itu?
 வழக்கமாக எங்கு காலை உணவை உட்கொள்வீர்கள்?
- A Disediakan di rumah / வீடு
 B Beli di kantin sekolah / பள்ளி சிற்றுண்டிச் சாலை
 C Beli di restoran atau warung / கடை
 D Disediakan di asrama / பள்ளி விடுதி
 E Lain-lain / மற்றது
 F Tidak ambil sarapan / காலை உணவு உட்கொள்வதில்லை
- B4** Sekiranya anda tidak mengambil sarapan, apakah sebabnya?
 ஏன் காலை உணவை உட்கொள்வதில்லை?
- A Tiada makanan / உணவு மல்லை
 B Tiada selera / உண்ண விருப்பமில்லை
 C Tiada masa / நேரம்பல்லை
 D Berdiet/kawal berat badan / உணவு கட்டுப்பாட்டிலிருத்தல்
 E Tiada duit / பணம் பற்றாக்கற
 F Lain-lain / மற்றது
 G Tidak berkaitan/kerana saya mengambil sarapan setiap hari
 தொடர்பு அல்லை/ தினமும் காலை சிற்றுண்டி உட்கொள்வேன்.

Tingkatan Pendidikan dalam Kehidupan

- B5** Kebiasaan anda, dalam seminggu berapa hari anda makan dan/atau minum pada waktu rehat sekolah?
valuhukkamakak ছিৰু বাগৰত্তীল এত্তেলা মুলৱ পৰ্ণৰি ছিয়ব নেৰাত্তীল উন্নব উটকোৰ্সৰিৰকৰ?
- A 0 hari / 0 নোট
 - B 1 hari / 1 নোট
 - C 2 hari / 2 নোট
 - D 3 hari / 3 নোট
 - E 4 hari / 4 নোট
 - F 5 hari / 5 নোট
- B6** Kebiasaan anda, dari mana anda dapat makanan itu?
valuhukkamak আঁড়বজাল গৰ্বকীৰ্ত্তু পেগুৰিৰকৰ?
- A Bekal dari rumah / বৈ়ু
 - B Beli di kantin sekolah / পৰ্ণৰি চিৰৰুণ্ডিচচৰাল
 - C Beli di restoran atau warung / কল
 - D Disediakan di asrama / পৰ্ণৰি লিভেটি
 - E Lain-lain / মৰ্ত্ততু
 - F Tidak berkaitan/tidak mengambil makan dan/atau minum pada waktu rehat
ৰিতাটৰ্পু ষল্লে/ ছিয়ব নেৰাত্তীল উন্নব উটকোৰ্সৰিৰকৰ
- B7** Kebiasaan anda, dalam seminggu berapa hari anda makan tengah hari (11.00 pagi hingga 3.00 petang)?
valuhukkamakak ছিৰু বাগৰত্তীল এত্তেলা মুলৱ মত্তীয় উন্নব উন্নপৰ্িৰকৰ (কালৱ মণি 11.00-
লিগুন্তুমোল মণি 3.00 ঘণ্টা)?
- A 1 hari / 1 নোট
 - B 2 hari / 2 নোট
 - C 3 hari / 3 নোট
 - D 4 hari / 4 নোট
 - E 5 hari / 5 নোট
 - F 6 hari / 6 নোট
 - G 7 hari / 7 নোট
 - H Tidak mengambil makanan tengah hari / মত্তীয় উন্নব উটকোৰ্সৰিৰকৰ
- B8** Kebiasaan anda, dari mana anda dapat makanan itu?
valuhukkamak আঁড়বজাল গৰ্বকীৰ্ত্তু পেগুৰিৰকৰ?
- A Disediakan di rumah / বৈ়ু
 - B Beli di kantin sekolah / পৰ্ণৰি চিৰৰুণ্ডিচচৰাল
 - C Beli di restoran atau warung / কল
 - D Disediakan di asrama / পৰ্ণৰি লিভেটি
 - E Lain-lain / মৰ্ত্ততু
 - F Tidak berkaitan/tidak ambil makanan tengahari /
ৰিতাটৰ্পু ষল্লে/ ছিয়ব নেৰাত্তীল উন্নব উটকোৰ্সৰিৰকৰ

- B9** Sekiranya anda tidak mengambil makan tengahari, apakah sebabnya?
Orang merti yang bukan makan tengahari?
- A Tiada makanan / bukan makanan
 - B Tiada selera / bukan makanan
 - C Tiada masa / bergerak
 - D Berdiet / kawal berat badan / bukan makanan
 - E Tiada duit / pengeluaran
 - F Lain-lain / merti
 - G Tidak berkaitan/ambil makan tengahari / Makanan tidak ada/ merti bukan makan tengahari
- B10** Kebiasaan anda dalam seminggu berapa hari anda mengambil minum petang (3.00 petang hingga 6.00 petang)?
Berdasarkan maklumat diatas, berapa kali anda mengambil minum petang (makanan merti 3.00-6.00 petang)?
- A 1 hari / 1 kali
 - B 2 hari / 2 kali
 - C 3 hari / 3 kali
 - D 4 hari / 4 kali
 - E 5 hari / 5 kali
 - F 6 hari / 6 kali
 - G 7 hari / 7 kali
 - H Tidak minum petang / makanan merti
- B11** Kebiasaan anda, dari mana anda dapat makanan itu?
Berdasarkan maklumat diatas, berapa kali anda mendapat makanan?
- A Disediakan di rumah / rumah
 - B Beli di kantin sekolah / sekolah
 - C Beli di restoran atau warung / restoran
 - D Disediakan di asrama / asrama
 - E Lain-lain / merti
 - F Tidak ambil minum petang / makanan merti
- B12** Kebiasaan anda dalam seminggu berapa hari anda makan malam(6.00 petang hingga 10.00 malam)?
Berdasarkan maklumat diatas, berapa kali anda makan malam (makanan merti 6.00-10.00 petang)?
- A 1 hari / 1 kali
 - B 2 hari / 2 kali
 - C 3 hari / 3 kali
 - D 4 hari / 4 kali
 - E 5 hari / 5 kali
 - F 6 hari / 6 kali
 - G 7 hari / 7 kali
 - H Tidak makan malam / makanan merti

Dokumen Persemaianan Kesehatan

- B13** Kebiasaannya, dari mana anda dapat makanan itu?
Orangtua/muridku / ahli waris/kerabat?
- A Disediakan di rumah / 父母
 - B Beli di restoran atau warung / 咖啡店
 - C Disediakan di asrama / 食宿处
 - D Lain-lain / 其他
 - E Tidak berkaitan/tidak ambil makan malam / 未进餐/未吃晚餐
- B14** Sekiranya anda tidak mengambil makan malam, apakah sebabnya?
Orangtua/muridku / ahli waris/kerabat?
- A Tiada makanan / 无饭食
 - B Tiada selera / 无胃口
 - C Tiada masa / 无时间
 - D Berdiet / 节食
 - E Tiada duit / 无钱
 - F Lain-lain / 其他
 - G Tidak berkaitan/ambil makan malam / 未进餐/未吃晚餐
- B15** Dalam seminggu yang lepas, berapa kerap anda ambil makanan berat selepas makan malam? (Contoh: nasi lemak, roti canai, mee goreng, burger, ayam goreng, mee segera dan sebagainya. Ini tidak termasuk snek ringan contohnya 2 keping biskut dan/atau satu gelas susu)
Orangtua/muridku / ahli waris/kerabat?
- (Utauaraannya mak: nasi lemak, roti canai, mee goreng, burger, ayam goreng, mee segera dan sebagainya. Ini tidak termasuk snek ringan contohnya 2 keping biskut dan/atau satu gelas susu)
- Orangtua/muridku / ahli waris/kerabat:
(Utauaraannya mak: nasi lemak, roti canai, mee goreng, burger, ayam goreng, mee segera dan sebagainya. Ini tidak termasuk snek ringan contohnya 2 keping biskut dan/atau satu gelas susu)
- A 1 hari / 1 天
 - B 2 hari / 2 天
 - C 3 hari / 3 天
 - D 4 hari / 4 天
 - E 5 hari / 5 天
 - F 6 hari / 6 天
 - G 7 hari / 7 天
 - H Tidak ambil makanan berat selepas makan malam /
未进餐/未吃晚餐
- B16** Di manakah anda mengambil makanan berat tersebut?
Orangtua/muridku / ahli waris/kerabat?
- A Rumah / 家
 - B Restoran atau warung / 咖啡店
 - C Asrama / 食宿处
 - D Lain-lain / 其他
 - E Tidak berkaitan/tidak ambil makanan berat /
未进餐/未吃晚餐

- B17** Kebiasaan anda dalam seminggu berapa hari anda makan makanan segera yang dibeli dari restoran makanan segera seperti burger, pizza, ayam goreng, kentang goreng, nugget dan sebagainya?
बास्तकमाक ओरु वारान्तील एत्तत्त्व मूर्त्र तुरित उच्चव उट्टेकाल्लिक्कन. എത്താണ്ടത്തിൽ പരക്ക്. പോ, പൊരിത്തച്ച കോഴി, പിരാങ്ങ് പിറാൻ, നടക്ക് മന്ത്രമും ചില.
- A. 1 hari / 1 നാൾ
 - B. 2 hari / 2 നാൾ
 - C. 3 hari / 3 നാൾ
 - D. 4 hari / 4 നാൾ
 - E. 5 hari / 5 നാൾ
 - F. 6 hari / 6 നാൾ
 - G. 7 hari / 7 നാൾ
 - H. Tidak ambil makanan segera / നാൾ തുരിത ഉച്ചവ ഉട്ടെകാല്ലവ്തില്ലെല.
- B18** Berapa kerap anda membawa bekal makanan ke sekolah?
പൊതുവാക എത്തണ്ണ മൂര്ത്ര പാണിക്കുവിട്ടിലിരുന്തു ഉച്ചവ എത്തുച്ചെല്ലവ്ക്കൻ?
- A. Setiap hari / തിനമുമ്പ്
 - B. Kadang-kadang / ചില നേരത്തില്
 - C. Tidak / പാണിക്കു നീര് എത്തുച്ചെല്ലമാട്ടേണ്
- B19** Apakah bekal makanan yang biasa dibawa ke sekolah? (Boleh pilih SATU atau DUA jawapan sahaja)
എന്ത് ഉച്ചവ ബൃക്കമാക പാണിക്കു എത്തുച്ചെല്ലവ്ക്കൻ? (ഒൺ്റു അല്ലതുയാണു ഉച്ചവ തേരുവ ചെയ്യലാമ്)
- A. Nasi lemak/nasi goring/nasi berlauk / നാചി ഭലമാക്/നാചി കോറോൾ/നാചി പെറ്റലാവുക്
 - B. Mee / Bihun / Kueh Teow / മീ / മീബുൺ / ഗ്രൂവേ ട്രിയാൾ
 - C. Roti / Ban / Sandwic / റോത്തി / പാണി / കാംബിൾ
 - D. Nugget / Sosej / Burger / നടക്ക് / ഉസാറേഞ്ച് / പരക്ക്
 - E. Biskut / പിസ്കിട്ട്
 - F. Buah-buahan / പഴമുഖം
 - G. Lain-lain / മറ്റൊരുതു
 - H. Tidak bawa bekal / പാണിക്കു ഉച്ചവ എത്തുച്ചെല്ലമാട്ടേണ്
- B20** Berapa kerap anda membawa bekal minuman ke sekolah?
പൊതുവാക എത്തണ്ണ മൂര്ത്ര പാണിക്കു നീര് എത്തുച്ചെല്ലവ്ക്കൻ?
- A. Setiap hari / തിനമുമ്പ്
 - B. Kadang-kadang / ചില നേരത്തില്
 - C. Tidak / പാണിക്കു നീര് എത്തുച്ചെല്ലമാട്ടേണ്

Food and Physical Activity

- B21** Apakah bekalan minuman yang biasa dibawa ke sekolah? (Boleh pilih **SATU** atau **DUA** jawapan sahaja)
வழக்கமாக எவ்வகை நீரை பள்ளிக்கு எடுத்துச் செல்வீர்கள்? (இன்று அல்லது பிரண்டு விடையை மட்டும் தெர்வு செய்க)
- A Air kosong / தட்டினி)
 - B Air berperisa (air kotak/air sirap/ teh / kopi/ milo)
ஈவபாணம்(ரீபாப், தேநீர், மீலோ)
 - C Air berkarbonat / கார்போனைட் பாணம்
 - D Susu / minuman berkultur (air yogurt) / பால்/ மோர்
 - E Lain-lain / மற்றது
 - F Tidak bawa bekal / பள்ளிக்கு நீர் எடுத்துச் செல்லமாட்டேன்
- B22** Kebiasaannya, bagaimana wang saku/duit poket anda banyak dibelanjakan?
வழக்கமாக பணத்தை ஏதர்காக உசூவு செய்வீர்கள்?
- A Membeli makanan dan/atau minuman / உணவு
 - B Membeli alat tulis / ஏழத் பயன்படுத்தும் பொருட்கள்
 - C Simpanan / சேமிப்பு
 - D Lain-lain / மற்றது
 - E Tidak bawa wang saku/duit poket / பள்ளிக்கு பணம் எடுத்துச் செல்லமாட்டேன்
- B23** Dalam seminggu berapa kali anda makan di luar? Tidak termasuk makan di sekolah dan di asrama.
வாரத்தில் எத்தனை முறை வெளியே உணவு உட்கொள்வீர்கள் ?பள்ளி மற்றும்பள்ளி விடுதியில் உண்பது ஏதில் உட்படத்தில்லை.
- A 1 kali / 1 முறை
 - B 2 kali / 2 முறை
 - C 3 kali / 3 முறை
 - D 4 kali / 4 முறை
 - E 5 kali / 5 முறை
 - F 6 kali / 6 முறை
 - G 7 kali atau lebih / 7 முறைக்கு மேல்
 - H Tidak pernah / வெளியே உணவு உட்கொள்வதில்லை
- B24** Apakah jenis makanan ringan yang selalu anda makan? (Boleh pilih **SATU** atau**DUA** jawapan sahaja)
எவ்வித துரித உணவை உட்கொள்வீர்கள் (இன்று அல்லதுபிரண்டு விடையை மட்டும் தெர்வு செய்க)
- A Roti / Bun / Sandwich / ரூபாட்டி / பனி / சாஸ்விச்
 - B Kentang goreng / பிரகு பிரகரல்
 - C Biskut / பிள்ளிட்
 - D Buah-buahan / பழம்
 - E Kekacang / தாவியம்
 - F Keropok / கிழங்கு சிப்ஸ்
 - G Aiskrim / பகிக்கூல்
 - H Tidak ambil makanan ringan / துரித உணவு உட்கொள்வதில்லை

- B25** Berapa kerap anda mengambil makanan ringan tersebut dalam seminggu?
 Ուր արդինիլ շնորհած մարդ դրիթ շնչվ ստեկանվիրկն?
- A 1 kali / 1 մուտք
 - B 2 kali / 2 մուտք
 - C 3 kali / 3 մուտք
 - D 4 kali / 4 մուտք
 - E 5 kali / 5 մուտք
 - F 6 kali / 6 մուտք
 - G 7 kali atau lebih / 7 մուրակ்கு մոլ
 - H Tidak pernah makanan ringan atau snek / դրիթ շնչվ ստեկանվիրկն
- B26** Apakah jenis makanan dan/atau minuman yang selalu anda beli dari luar pagar sekolah?(Boleh pilih **SATU** atau**DUA** jawapan sahaja)
 Ենթակայ շնչառ պարզ վալակադին վենից բեռնվիրկն? (Ընդռ ավելա արձակ վիշտայ մա՛կ ենթավ ծայկ)
- A Gula-gula/coklat / սակետ

TOKAUKU PERSEKOLAHAN KELUARGA

- C14** Berapa lamakah anda menonton televisyen dan/atau menggunakan komputer dan/atau bermain permainan video pada **hari persekolahan?**
எவ்வளவு நேரம் எதில் செலவழிப்பீர்கள்?
- A kurang dari 1 jam sehari
1 மணி நேரத்திற்கு குறைவாக
 - B 1 jam hingga kurang dari 2 jam sehari
இரு நாளில் 1 மணியிலிருந்து 2 மணி நேரம்
 - C 2 jam hingga kurang dari 3 jam sehari
இரு நாளில் 2 மணியிலிருந்து 3 மணி நேரம்
 - D 3 jam hingga kurang dari 4 jam sehari
இரு நாளில் 3 மணியிலிருந்து 4 மணி நேரம்
 - E Lebih dari 4 jam sehari
4 மணி நேரத்திற்கு மேல்

MODUL D : PERSEPSI PENGURUSAN BERAT BADAN
Beberapa D : Ulat rasa dan kataban pada kertas jawapan yang disediakan

Arahan : Pilih jawapan dan hitamkan pada kertas jawapan yang disediakan.
Kata-kata : Sarimanan atau sepatutnya berdasarkan maklumat yang diberikan

- D1** Pada masa sekarang, anda rasa anda:
 Tharzamayathil, dan ulat rasa:
 A Kurang berat badan yang ketara
 miskin dan kurang berat badan
 B Kurang berat badan
 kurang berat badan
 C Mempunyai berat badan yang sesuai
 sama dengan berat badan
 D Berlebihan berat badan
 berlebihan berat badan
 E Sangat berlebihan berat badan
 berlebihan berat badan
- D2** Apakah yang anda sedang lakukan terhadap berat badan anda?
 Apakah yang anda sedang lakukan terhadap berat badan anda?
 A Saya sedang berusaha untuk menurunkan berat badan saya
 ulat rasa dan kurang berat badan
 B Saya sedang berusaha untuk menambahkan berat badan saya
 ulat rasa dan kurang berat badan
 C Saya tidak membuat apa-apa terhadap berat badan saya
 tidak membuat apa-apa terhadap berat badan
 D Saya sedang mengelakkan berat badan saya
 ulat rasa dan kurang berat badan
- D3** Sekiranya anda berhasrat untuk mengurangkan berat badan, apakah faktor utama yang mendorong anda berbuat demikian?
 Apakah faktor utama yang mendorong anda berbuat demikian?
 A Kesihatan
 ulat rasa dan kurang berat badan
 B Kecantikan
 ulat rasa dan kurang berat badan
 C Meningkatkan keyakinan diri
 ulat rasa dan kurang berat badan
 D Mendapat ramai kawan
 ulat rasa dan kurang berat badan
 E Tidak berhasrat mengurangkan berat badan
 ulat rasa dan kurang berat badan

TOPICS/PROMOTIONAL QUESTION

- D4** Sekiranya anda berhasrat untuk **mengurangkan berat badan**, apakah kaedah yang menjadi pilihan utama anda? (ambilnya 1 atau 2 setiap yang anda buat)
- A Bersenam
उत्तर्पयिर्चि
 - B Kurangkan pengambilan makanan tinggi lemak (contoh: makanan bergoreng)
केामुप्पु निऱन्त्र उணव तुरन्तत्व
 - C Kurangkan pengambilan makanan manis
मनीप्पु निऱन्त्र उணव तुरन्तत्व
 - D Meningkatkan pengambilan sayur-sayuran dan buah-buahan
निऱय पழम मற्ऱुम काम्कानिकूं उट्कोांलूत्व
 - E Tidak mengambil hidangan utama (sarapan/ tengah hari/ makan malam)
उணव तविर्त्तत्व (काले लिन्नुन्नुषि/ माले उणव/ मरव उणव)
 - F Mengambil pil diet/menggunakan krim pelangsing tubuh
मरुन्तु पयंपुत्तुत्व
 - G Berpuasa
विरतम्
 - H Mendapat khidmat professional
अर्थवर नात्व
 - I Tidak berhasrat mengurangkan berat badan
उट्ल गतेयक तुरक्क विरुप्पमिल्ल
- D5** Sekiranya anda berhasrat untuk **menambahkan berat badan**, apakah faktor utama yang mendorong anda berbuat demikian?
दहनाल नीक्कूं उट्ल गतेय अन्तिकरिक्क मुयर्चि उसंकिर्स्कूं?
- A Kesihatan / उट्ल निवलयेप बेळ
 - B Kecantikan / अमृतकप बेळ
 - C Meningkatkan keyakinan diri / तांत्रापीक्कैय उयर्त्त
 - D Mendapat ramai kawan / निऱय नश्शपर्कूं किटेक्क
 - E Tidak berhasrat menambah berat badan / उट्ल गतेयक अन्तिकरिक्क विरुप्पमिल्ल
- D6** Sekiranya anda berhasrat untuk **menambahkan berat badan**, apakah kaedah yang menjadi pilihan utama anda? (ambilnya 1 atau 2 setiap yang anda buat)
- A Menambah kuantiti makanan yang diambil
उट्कोांलूम उणविल आतव अन्तिकरिप्पेळ

Tujuan Penyelidikan Kesehatan

- E5** Adakah anda ada mengambil sebarang suplemen makanan?
�ீங்கள் மாற்றுச்சத்துணவு உட்கொள்விருக்கா?
 A Ya / ஆம்
 B Tidak / பல்லை
 (Jika TIDAK, sila jawab **TIDAK AMBIL SUPLEMEN** di soalan E6, E7, dan E8)
 (யல்லை என்றால், விடமின் உட்கொள்ளவில்லை என்றுE2, E3, மற்றும்E4 கேள்விகளில் விடையளிக்கவும்)
- E6** Apakah jenis suplemen makanan yang biasa diambil?
என்னிடமான மாற்றுச்சத்துணவை நீங்கள் உட்கொள்கிறிகள்?
 A Spirulina / சிபிருலினா
 B Minyak ikan / மீன் எண்ணை
 C Madu atau hasil madu / தேன்
 D Pati ayam / கோழி ஸ்தார்ச
 E Lain-lain / மற்றது
 F Tidak ambil suplemen / விடமின் உட்கொள்ளவில்லை
- E7** Apakah sebab anda mengambil suplemen makanan tersebut?
எத்தனை மாற்றுச்சத்துணவு உட்கொள்கிறிகள்?
 A Atas arahan doktor
மருத்துவரின் ஆலோசனை
 B Atas arahan ibubapa
பெற்றோரின் ஆலோசனை
 C Kesedaran sendiri
சுய முயற்சி
 D Pengaruh kawan-kawan
நண்பர்களால்
 E Lain-lain
மற்றது
 F Tidak ambil suplemen
விடமின் உட்கொள்ளவில்லை
- E8** Berapa kerap anda mengambil suplemen makanan tersebut?
ஒரு வாரத்தில் எத்தனை முறை நீங்கள் மாற்றுச்சத்துணவு உட்கொள்விருகள்?
 A Setiap hari / ஒவ்வொரு நாளும்
 B 5-6 kali seminggu / 5-6 முறை
 C 3-4 kali seminggu / 3-4 முறை
 D 1-2 kali seminggu / 1-2 முறை
 E Tidak ambil suplemen / விடமின் உட்கொள்ளவில்லை

Minuman Pemakanan dan Rantau

Berdasarkan kepada panel maklumat pemakanan pada satu Minuman Kotak XYZ yang ditunjukkan di bawah. Sila baca dan nyatakan sama ada kenyataan berikut adalah betul atau salah.

Kejuruteraan dan teknologi mewujudkan hidangan yang seimbang dan mudah dimakan. XYZ adalah minuman yang boleh dikonsumsi oleh semua orang. Ia mengandungi banyak gula dan lemak. Ia juga mengandungi protein yang sedikit. Ia boleh memberikan tenaga yang cukup untuk aktiviti fizikal. Ia juga boleh membantu dalam penurunan berat badan.

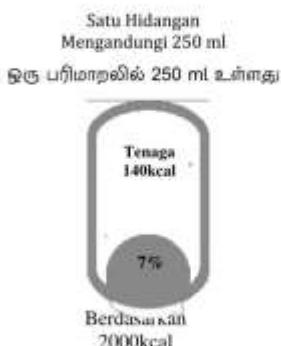

| Maklumat Pemakanan bagi Minuman XYZ | | |
|---|--------|-------|
| Grup/Perkiraan | 100 ml | 250ml |
| Saiz hidangan : Panganan | 250ml | 250ml |
| Jumlah hidangan bagi setiap kotak: 1 Pengiraan | 1 | 1 |
| Tenaga (kcal) Sarabutu | 56 | 140 |
| Karbohidrat (g) Ketulit | 10.9 | 27.3 |
| Jumlah gula (g) Sarikka | 10.6 | 26.5 |
| Protein (g) Purut | 0 | 0 |
| Lemak (g) Kelembut | 0 | 0 |

- F5 Jika saya minum 100ml minuman ini, ia membekalkan 56 kcal tenaga.
 Nombor 100ml kuarters perapam kudat dalam, dan akhir 56 kalori ini sepadan dengan 56 gram gula.
 A Betul / Sar
 B Salah / Pintu
 C Tidak tahu / Dapat dilihat
- F6 Jika saya minum satu kotak minuman ini, bermaksud saya telah mengambil 26.5 gram gula.
 Akhirnya, 26.5 gram gula ini sepadan dengan 26.5 gram gula.
 A Betul / Sar
 B Salah / Pintu
 C Tidak tahu / Dapat dilihat

Tinjauan Perindustrian Remaja

Berdasarkan kepada label kandungan tenaga pada pandangan hadapan (*front of pack labelling*) di bawah, sila nyatakan sama ada kenyataan berikut adalah betul atau salah.

Kemungkinan yang keluar di bawah, kecuali kalori per minuman 250 ml adalah:

- F7 Nilai tenaga untuk dua hidangan makanan ini adalah 140kcal.
2 per minuman 250 ml 7%.

- A Betul / 正确
- B Salah / 错误
- C Tidak tahu / 不知道

- F8 Jika saya minum satu hidangan makanan ini, ia membekalkan 7% tenaga daripada 2000 kalori tersebut.
Dalam 250 ml 7%.

- A Betul / 正确
- B Salah / 错误
- C Tidak tahu / 不知道

Produk ais krim A**Parikanikkuil A****Senarai Ramuan /Bahan:****Ularanடக்கம்:**

Gula, Olein/Minyak Isirung Kelapa Sawit, Pepejal Susu, Sirap Glukosa, Serbuk Koko
சர்க்கரை, பனை ஏண்ணைய், பால், சிரப் குழுகோல், மகாக்கோ

F9 Apakah ramuan/bahan yang paling banyak digunakan dalam ais krim ini?
மப்பளிக்கூவில் அதிகமான அளவில் பயன்படுத்தப்பட்டுள்ள பொருள் எது?

- A. Pepejal susu
பால்
- B. Sirap glukosa
குழுகோல்

ADOLESCENT NUTRITION SURVEY 2017
马来西亚学生营养调查 2017

Survey form/调查问卷

INTRODUCTION / 简介

The survey was conducted to determine the nutritional status, eating habits, food intake, physical activity level, and the use of food labels and nutrition. Selected student from all over the country will also answer this questionnaire. 这项调查是为了了解你的营养状况，饮食习惯，食物摄取，体能活动质量，和食品标签应用。在全国各地与你一样被选中的学生，也会回答这份问卷。

The information you provide will be used to develop better health programs for the future younger generation. 你所提供的资料将被用于规划更好的健康方案给予如你一样的年轻一代。

Guide to filling survey forms/填写问卷指南

1. Your responses will be kept **CONFIDENTIAL**. Answer the questions based on what you know and what you do. There is no right or wrong answers.
你提供的答案将被保密。请根据你所知道与你所做的来作答。答案没有对错之分。
2. Read the question carefully. Shade your answer on the answer sheet provided with a 2B pencil supplied.
请仔细阅读问题。请使用所提供的2B铅笔并在准备好的答案纸上划黑作答。
3. How to shade the answer/如何划黑作答:
Shade your answer like this ● Not like this ○
如此划黑作答 不是这样划 or
或这样 ✎
4. Only one answer for each question UNLESS there are other instructions.
每题只能拥有一个答案，除非有其他指示。
5. If you do not understand, please raise your hand to ask question.
如果你在作答期间不明白，请举手发问。
6. Kindly wait for instruction from your class facilitator once you have completed the survey.
当你回答完毕，请等待班上协调员的指令。

THANK YOU FOR YOUR WILLINGNESS TO COMPLETE THE SURVEY
感谢你愿意回答问卷

During Periodical Holidays

B5 Normally, how many days in a week do you eat and/or drink during school break time?
你通常在一个星期内有几天会在学校休息节时吃食物与/或喝饮料?

- A 0 day/0天
- B 1 day/1天
- C 2 days/2天
- D 3 days/3天
- E 4 days/4天
- F 5 days/5天

B6 Normally, where do you obtain the food?
你通常从哪里获得该食物?

- A Bring from home/在家准备
- B Buy from school canteen/学校食堂购买
- C Buy at restaurant or kiosk/餐馆或摊子购买
- D Provided by hostel/宿舍提供
- E Others/其他途径
- F Not applicable/ I do not consume food and/or drink during school break time
不相关/没有在学校休息节时吃食物与/或喝饮料

B7 Normally, how many days in a week do you consume lunch (11.00AM till 3.00PM)?
你通常在一个星期内有几天会吃午餐(从早上11点到下午3点)?

- A 1 day/1天
- B 2 days/2天
- C 3 days/3天
- D 4 days/4天
- E 5 days/5天
- F 6 days/6天
- G 7 days/7天
- H I do not take lunch/没有吃午餐

B8 Normally, where do you obtain the food?
你通常从哪里获得该食物?

- A Prepared at home/在家准备
- B Buy from school canteen/学校食堂购买
- C Buy from restaurant or kiosk/餐馆或摊子购买
- D Provided by hostel/宿舍提供
- E Others/其他途径
- F Not applicable/ I do not take lunch/不相关/没有吃午餐

B9 If you do not take lunch, what is the reason?

如果你没有吃午餐，请问是什么原因？

- A No food/没有食物
- B No appetite/没有胃口
- C No time/没有时间
- D On diet/ control body weight/节食/控制体重
- E No money/没有钱
- F Others/其他原因
- G Not applicable/ I take lunch/不相关/ 我有吃午餐

B10 Normally, how many days in a week do you have afternoon tea (3.00PM till 6.00PM)?

你通常在一个星期内有几天会吃下午茶点（从下午3点到傍晚6点）？

- A 1 day/1天
- B 2 days/2天
- C 3 days/3天
- D 4 days/4天
- E 5 days/5天
- F 6 days/6天
- G 7 days/7天
- H No afternoon tea/没有吃下午餐

B11 Normally, where do you obtain the food?

你通常从哪里获得下午茶点的食物？

- A Prepared at home/在家准备
- B Buy from school canteen/学校食堂购买
- C Buy from restaurant or kiosk/餐馆或摊子购买
- D Provided by hostel/宿舍提供
- E Others/其他途径
- F Not having afternoon tea/没有吃下午茶点

B12 Normally, how many days in a week do you have dinner(6.00PM till10.00PM)?

你通常在一个星期内有几天会吃晚餐（从傍晚6点到晚上10点）？

- A 1 day/1天
- B 2 days/2天
- C 3 days/3天
- D 4 days/4天
- E 5 days/5天
- F 6 days/6天
- G 7 days/7天
- H Not having dinner/没有吃晚餐

*Food and Beverage Intake***B13** Normally, where do you obtain the food?

通常从哪获得该食物?

- A Prepared at home/在家准备
- B Buy from restaurant or kiosk/餐馆或摊子购买
- C Provided by hostel/宿舍提供
- D Others/其他途径
- E Not applicable/ I do not take dinner/不相关/ 没有吃晚餐

B14 If you do not take dinner, what is the reason?

如果你没有吃晚餐, 请问是什么原因?

- A No food/没有食物
- B No appetite/没有胃口
- C No time/没有时间
- D On diet/节食
- E No money/没有钱
- F Others/其他原因
- G Not applicable/ I take dinner/不相关/ 有吃晚餐

B15 For the past one week, how often do you take heavy meals after dinner? (Example: nasilemak, roti canai, fried mee, burger, fried chicken, instant noodle and etc. This does not include light snacks, eg 2 pieces of biscuit and/or one glass of milk)

在上周里面, 有几天你在完晚饭后会吃难消化的食物? (例: 椰浆饭, 印度煎饼, 炒面, 汉堡包, 炸鸡, 快熟面等。这不包括小吃, 例如2块饼干和/或一杯牛奶)

- A 1 day/1天
- B 2 days/2天
- C 3 days/3天
- D 4 days/4天
- E 5 days/5天
- F 6 days/6天
- G 7 days/7天
- H I do not take heavy meals after dinner/晚餐后不再吃东西

B16 Where do you take the heavy meals?

你从哪里享用该食物?

- A Home/家里
- B Restaurant/ kiosk/餐馆或摊子
- C Hostel/宿舍
- D Others/其他地方
- E Not applicable/ I do not take heavy meals/不相关/ 晚餐后不再吃东西

B17 Normally, how many days in a week do you eat fast food bought from fast food restaurant, such as burger, pizza, fried chicken, French fries, nugget and etc?
你通常在一个星期内有几天会吃从快餐店购买的食物如汉堡包，披萨饼，炸鸡，薯条，鸡肉块等等？

- A 1 day/1天
- B 2 days/2天
- C 3 days/3天
- D 4 days/4天
- E 5 days/5天
- F 6 days/6天
- G 7 days/7天
- H No fast food/没有吃快餐

B18 How often do you bring food to school?
你可否有从家里携带便当/食物到学校？

- A Everyday/每天
- B Occasionally/偶尔（有时候会）
- C Never/没有携带

B19 What is the usual packed meal that you bring to school? (Can choose **ONE or TWO** answer(s) only)
通常会带什么食物到学校？（只能选择一个或两个答案）

- A Nasi lemak/fried rice/mixed rice
椰浆饭 / 炒饭 / 饭菜
- B Noodle / Vermicelli / KuehTeow
面 / 米粉 / 河粉
- C Bread / Bun / Sandwich
面包 / 馒头 / 三文治
- D Nugget / Sausage / Burger
鸡肉块 / 香肠 / 汉堡包
- E Biscuit/饼干
- F Fruits/水果
- G Others/其他
- H I do not bring packed meal/没有携带食物

B20 How often do you bring drink to school?
你可否有从家里携带饮料到学校？

- A Everyday/每天
- B Occasionally/偶尔（有时候会）
- C Never/没有携带

Temporary Residence/居住地

B21 What is the usual drink that you bring to school?(Can choose **ONE** or **TWO** answer(s) only)
通常会带什么饮料到学校? (只能选择一个或两个答案)

- A Plain water/白开水
- B Flavored water/packed drink/syrup drink/tea/coffee/Milo
有味饮料 / 包装饮料 / 糖浆饮料 / 茶 / 咖啡 / 美禄
- C Carbonated drink/汽水
- D Milk/ cultured drink/奶/ 酸奶饮品 (优格)
- E Others/其他
- F I don't bring drink to school/没有携带饮料

B22 Normally, where do you mostly spend your pocket money?
你最常把零用钱花在哪一方面?

- A Buy food and/ or drink/购买食物X或饮料
- B Buy stationery/购买文具
- C Saving/储蓄
- D Others/其他
- E I do not bring pocket money to school/没有零用钱

B23 How often do you eat outside in a week?Not included eating in the school and hostel ?
你通常在一个星期内有几天会在外用餐? 不包括在学校和宿舍?

- A 1 time/1次
- B 2 times/2次
- C 3 times/3次
- D 4 times/4次
- E 5 times/5次
- F 6 times/6次
- G 7 times or more/7次或以上
- H Never/没有在外面用餐

B24 What kind of snack foods that you always eat?(Can choose **ONE** or **TWO** answer(s) only)
你最常吃的零食是什么? (只能选择一个或两个答案)

- A Bread / Bun / Sandwich/面包 / 馒头 / 三明治
- B French fries/薯条
- C Biscuit/饼干
- D Fruits/水果
- E Nuts/花生
- F Fish cracker/炸鱼饼/虾饼
- G Ice cream/冰淇淋
- H I do not take snack food/没有吃零食

B25 How often do you take snack foods in a week?
你在一个星期内吃多少次零食?

- A 1 time/1次
- B 2 times/2次
- C 3 times/3次
- D 4 times/4次
- E 5 times/5次
- F 6 times/6次
- G 7 times or more/7次或以上
- H Never take snack food before/没有吃零食

B26 What types of food and/or drinks that you always buy out of school area? (Can choose ONE or TWO answer(s) only)
你从学校范围外买些什么类型的食物和/或饮料? (只能选择一个或两个答案)

- A Candy/chocolate/糖果 / 巧克力
- B French fries/ nugget / sausage/薯条 / 鸡肉块 / 香肠
- C Flavoured drink/ carbonated drink/各种口味饮料 / 汽水
- D Pickles/腌制食物
- E Snack food/零食
- F Fish cracker/炸鱼饼/虾饼
- G Ice cream/冰淇淋
- H Never take snack food outside the school area/没有买学校范围外的食物

B27 Within a week, how often do you buy food and/or drink outside school compound?
在一星期内，你可否有从学校范围外买食物和/或饮料?

- A 1 time/1次
- B 2 times/2次
- C 3 times/3次
- D 4 times/4次
- E 5 times/5次
- F 6 times/6次
- G 7 times or more/7次或以上
- H Never/没有购买

B28 Which media source(s) that most affect your dietary pattern? (Can choose ONE or TWO answer (s) only)/
什么媒体最影响你的食物选择? (只能选择一个或两个答案)

- A Social media (example : Surf Internet / YouTube / Facebook / Instagram, Twitter)
社交媒体 (例:游览网站 / 视频网站 / 面子书)
- B Television/电视机
- C Radio/电台
- D Printed media (Example: magazine, newspaper, billboard, brochure, catalogue)
平面媒体 (例子:杂志, 报章, 广告牌, 传单, 购物目录)
- E Not affected/没有被影响

National Physical Activity

MODULE C : PHYSICAL ACTIVITY
C 组：体能活动*Instruction : Choose the answer and shade on the answer sheet provided*

指示：请在准备好的答案纸上划黑作答

C1 Physical activity during leisure time: Are you doing the activities listed below during the last 7 days (last week). If YES, how many times?
 休闲体能活动：在过去的7天（上周）你有做出以下列出的哪些活动。如果有，请问多少次？

| | Activity/活动 | Never/ 没有 | 1-2 times/ 1-2 次 | 3-4 times/ 3-4 次 | 5-6 times/ 5-6 次 | 7 times or more/ 7 次或以上 |
|---|--|--------------|------------------------|------------------------|------------------------|-------------------------------|
| a | Rope skipping/跳绳 | A | B | C | D | E |
| b | Rowing/ Canoeing/划艇 | A | B | C | D | E |
| c | Silat / Karate / Taekwondo 马来武术/空手道/跆拳道 | A | B | C | D | E |
| d | Chasing game/追逐游戏 | A | B | C | D | E |
| e | Brisk walking/步行运动 | A | B | C | D | E |
| f | Cycling/骑脚踏车 | A | B | C | D | E |
| g | Jogging / Running/慢跑 / 赛跑 | A | B | C | D | E |
| h | Aerobics/有氧体操 | A | B | C | D | E |
| i | Swimming/游泳 | A | B | C | D | E |
| j | Baseball/棒球 | A | B | C | D | E |
| k | Dancing/跳舞 | A | B | C | D | E |
| l | Rugby/橄榄球 | A | B | C | D | E |
| m | Badminton/羽毛球 | A | B | C | D | E |
| n | Hockey/曲棍球 | A | B | C | D | E |
| o | Volleyball/排球 | A | B | C | D | E |
| p | Basketball / Netball/篮球 | A | B | C | D | E |
| q | Sepak takraw/藤球 | A | B | C | D | E |
| r | Football / Futsal/足球 | A | B | C | D | E |
| s | Ping pong/乒乓球 | A | B | C | D | E |

C2 During physical education class in the last 7 days, how often are you in an active condition (playing, running, throwing, jumping)?

在过去的7天，在体育课活动期间，你是否非常活跃（玩耍，奔跑，投球，跳跃）？

- A I do not attend the physical education class/我不参与体育课
- B Very rare/级少数
- C Occasionally/偶尔(有时候会)
- D Quite often/经常
- E Always/常常

C3 What do you usually do **during break time in the school** for the last 7 days?

在过去的7天，你都在学校休息课时做些什么？

- A Sitting down (chatting, reading, doing homework) /坐下(聊天，阅读，做功课)
- B Standing **or** walking/站立或步行
- C Running **or** playing for a short while/奔跑或偶尔玩耍
- D Running **and** playing for a short while/奔跑和偶尔玩耍
- E Running **and** playing all the time/奔跑和经常玩耍

C4 What are the activities that you normally do **during lunch time** for the last 7 days (apart from eating)?

在过去的7天，除了坐下吃午餐外，你都在吃午餐的时候做些什么？

- A Sitting down (chatting, reading, doing homework)/坐下(聊天，阅读，做功课)
- B Standing **or** walking/站立或步行
- C Running **or** playing for a short while/奔跑或偶尔玩耍
- D Running **and** playing for a short while/奔跑和适量的玩耍
- E Running **and** playing all the time/奔跑和经常玩耍

C5 In the last 7 days, how many days did you spend playing sports, dance or playing **actively immediately after school hours**?

在过去的7天，你有几天是直接在放学后运动，跳舞，或非常活跃的玩耍？

- A Never/没有
- B 1 day/1天
- C 2 or 3 days/2 或 3天
- D 4 days/4天
- E 5 days/5天

C6 In the last 7 days, how many days did you play sports, dance or play **actively in the evening**?

在过去的7天，你有几天是在下午时间运动，跳舞，或非常活跃的玩耍？

- A Never/没有
- B 1 day/1天
- C 2 or 3 days/2 或 3天
- D 4 or 5 days/4 或 5天
- E 6 or 7 days/6 或 7天

Temporary Population Register

- C7** How many times have you been involved with sport activates, dancing or engage in active games during last weekend?
在上个周末，你有多少次参与运动、跳舞、或活跃的课外活动？
- A Never/没有
B 1 time/1 次
C 2 or 3 times/2 或 3 次
D 4 or 5 times/4 或 5 次
E 6 times or more/6 次或以上
- C8** Which of the following statements describe you in the last 7 days?
以下哪项正是描述你在过去的7天的行为？
- A I use all or most of my spare time with a mild activity/
我用全部或大部分空闲的时间做些不劳累的活动
- B I occasionally (1-2 times per week) do physical activity during my spare time (example: involve in sport activities, running, swimming, cycling, aerobic activity)/
在空闲的时候，我偶尔（每周1-2次）会参与课外活动（例：运动，赛跑，游泳，骑脚踏车，有氧运动）
- C I sometimes (3-4 times per week) do physical activity during my spare time(example: involve in sport activities, running, swimming, cycling, aerobic activity)/
在空闲的时候，我有时（每周3-4次）会参与课外活动（例：运动，赛跑，跳舞，游泳，骑脚踏车，有氧运动）
- D I often (5-6times per week) do physical activity during my spare time (example: involve in sport activities, running, swimming, cycling, aerobic activity)/
在空闲的时候，我经常（每周5-6次）会参与课外活动（例：运动，赛跑，跳舞，游泳，骑脚踏车，有氧运动）
- E I regularly (7times or more per week) do physical activity during my spare time [example: involve in sport activities, running, swimming, cycling, aerobic activity]/
在空闲的时候，我常常（每周7次或以上）会参与课外活动（例：运动，赛跑，跳舞，游泳，骑脚踏车，有氧运动）

Physical Education and Recreational Activities

- C9** Highlight the frequency of your activity (such as sports, playing, dancing, or any other physical activity) for each day during the last one week.

上个星期的每一天，你有多少次参与课外活动（体育，玩耍，跳舞或其他课外活动）

| Day/日期 | | No activity/ 没有活动 | Occasionally (1-2 times)/ 偶尔 (1-2 次) | Sometimes (3-4 times) / 有时 (3-4 次) | Often (5-6) times/ 经常 (5-6 次) | Regularly (7 times or more)/ 常常 (7 次或以) |
|--------|-------------------|----------------------|---|---|--|---|
| a | Monday/ 星期一 | A | B | C | D | E |
| b | Tuesday/ 星期二 | A | B | C | D | E |
| c | Wednesday/ 星期三 | A | B | C | D | E |
| d | Thursday/ 星期四 | A | B | C | D | E |
| e | Friday/ 星期五 | A | B | C | D | E |
| f | Saturday/ 星期六 | A | B | C | D | E |
| g | Sunday/ 星期日 | A | B | C | D | E |

Domestic Physical Activity

C10 For the past week, are you sick, or are there any things that prevent you from doing regular physical activity?

在上个星期，你是否生病或因其他原因而导致你不能参与课外活动吗？

- A Yes/是
- B No/不是

C11 During **weekend**, do you watch television and/or use computer and/or play video games ?

在周末，你是否有看电视和/或使用电脑和/或玩电子游戏机 (example/如: PSP, Playstation, Gameboy and others)?

- A Yes/是
- B No/不是

C12 How long do you watch television and/or use computer and/or play video games during **weekend**?
在周末，你花多少时间在看电视和/或使用电脑和/或玩电子游戏机？

- A Less than 1 hour per day/一天少过 1 小时
- B 1 to 2 hours per day/一天 1 至 2 小时之间
- C 2 to 3 hours per day/一天 2 至 3 小时之间
- D 3 to 4 hours per day/一天 3 至 4 小时之间
- E More than 4 hours per day/一天 超过 4 小时

C13 During **school day**, do you watch television and/or use computer and/or playing video games?

在上学期间，你是否有看电视和/或使用电脑和/或玩电子游戏机(example/如: PSP, PlayStation, Gameboy and others)?

- A Yes/是
- B No/不是

C14 How long do you watch television and/or use computer and/or play video games on **school days**?

在上学期间，你花多少时间在看电视和/或使用电脑和/或玩电子游戏机？

- A Less than 1 hour per day/一天少过 1 小时
- B 1 to 2 hours per day/一天 1 至 2 小时之间
- C 2 to 3 hours per day/一天 2 至 3 小时之间
- D 3 to 4 hours per day/一天 3 至 4 小时之间
- E More than 4 hours per day/一天超过 4 小时

MODULE D : PERCEPTION OF WEIGHT MANAGEMENT
D 组：体重管理的自我观点

INSTRUCTION : Choose the answer and shade on the answer sheet provided.
指示：请在准备好的答案纸上划黑作答

- D1** At the present time, you think you are:
 目前，你觉得你：
 A Significant underweight/体重非常不足
 B Underweight/体重不足
 C Has appropriate body weight/拥有适当的体重
 D Overweight/体重过重
 E Obese/肥胖
- D2** What are you doing to your body weight?
 你对你的体重做了些什么？
 A I am trying to reduce my body weight/我正在努力减轻自己的体重
 B I am trying to increase my body weight/我正在努力增加自己的体重
 C I am not doing anything to my body weight/我什么也没做
 D I am maintaining my body weight/我正在维持自己的体重
- D3** If you intend to **lose body weight**, what are the main factor that motivate you to do so? /如果你想减肥，是什么主要因素驱使你这样做呢？
 A Health/健康
 B Beauty/漂亮
 C Increase self-confidence/提高自信
 D To have more friends/结交更多朋友
 E Does not intend to lose body weight/没有想过减肥
- D4** If you intend to **lose body weight**, what is the preferred option?
 如果你想减肥，什么方法是你的首选？
 A Exercise/运动
 B Reduce consumption of high fat foods/减少吃油腻的食物(Example/例子：fried food/煎炸食物)
 C Reduce intake of sugary foods/减少吃甜食
 D Increase intake of vegetables and fruits/多吃蔬菜和水果
 E Skip main meals/不吃正餐 (breakfast/早餐, lunch/午餐, dinner/晚餐)
 F Taking diet pills/ use slimming cream/吃减肥药/用减肥霜
 G Fasting/禁食
 H Get professional advise/征求专业服务
 I Does not intend to lose body weight/没有想过减肥
- D5** If you intend to **increase body weight**, what are the main factor that motivate you to do so?
 如果你想增肥，是什么主要因素驱使你这样做呢？
 A Healthy/健康
 B Beauty/漂亮
 C Increase self-confidence/提高自信
 D To have more friends/结交更多朋友
 E Does not intend to increase body weight/没有想过增肥
- D6** If you intend to **increase body weight**, what is the preferred option?
 如果你想增肥，什么方法是你的首选？
 A Increase the quantity of food consumed/吃更多的食物
 B Taking supplement (Additional foods such as milk, vitamin)/吃补助品 {如奶，维生素补助品}
 C Take high-calorie foods/吃高卡路里的食物
 D Others/其他
 E Does not intend to increase body weight/没有想过增肥

*Domestic Preliminary Results***MODULE E: SUPPLEMENT INTAKE**
E组： 食用营养补助品*Instruction : Choose the answer and shade on the answer sheet provided*
指示：请在准备好的答案纸上划墨作答**E1** Are you taking any vitamin supplement/ minerals?
你有在食用维生素/矿物质的补助品吗？

- A Yes/有
B No/没有

(If No, please answer 'I DON'T TAKE SUPPLEMENT' at question E2, E3, danE4
(如果没有，请在E2, E3 和 E4 回答没有食用补助品)**E2** What type of vitamin supplement/ minerals that you usually take?
你在食用什么维生素/矿物质补助品？

- A Multivitamin/多元维生素
B Vitamin C/维生素C
C Iron supplement (Ferum)/铁质
D Others/其他
E I do not take supplement/没有食用补助品

E3 What is the reason for you to take vitamin supplement/ minerals?
是什么原因使你在食用维生素/矿物质补助品？

- A Prescribed by doctor/医生指示
B Advised by parent/父母要求
C Self-awareness/自我意识
D Friend influence/朋友影响
E Others/其他
F I do not take supplement/没有食用补助品

E4 How often do you take vitamin supplement / minerals?
你如何食用该维生素/矿物质补助品？

- A Everyday/每天
B 5-6 times per week/一星期5至6次
C 3-4 times per week/一星期3至4次
D 1-2 times per week/一星期1至2次
E I do not take supplement/没有服用补助品

E5 Are you taking any food supplement?
你有在食用食物补助品吗？

- A Yes/有
B No/没有

(If NO, please answer 'I DON'T TAKE SUPPLEMENT' at question E6, E7, danE8)
(如果没有，请在E6, E7 和 E8 回答没有食用补助品)

E6 What kind of food supplement that you usually take?
你在食用什么食物补助品?

- A Spirulina/螺旋藻
- B Fish oil/鱼油
- C Honey/蜜糖或蜜糖制品
- D Chicken essence/鸡精
- E Others/其他
- F I do not take supplement/没有食用补助品

E7 What is the reason for you to take food supplement?
是什么原因使你在食用食物补助品?

- A Prescribed by doctor/医生指示
- B Advised by parent/父母要求
- C Self-awareness/自我意识
- D Friend influence/朋友影响
- E Others/其他
- F I do not take supplement/没有服用补助品

E8 How often do you take food supplement?
你如何食用该维生素/矿物质补助品?

- A Everyday/每天
- B 5-6 times per week/一星期 5 至 6 次
- C 3-4 times per week/一星期 3 至 4 次
- D 1-2 times per week/一星期 1 至 2 次
- E I do not take supplement/没有服用补助品

Food and Beverage Module

MODULE F: NUTRITION AND FOOD LABELLING
F组： 食品标签（只限于中学生作答）

Instruction: Choose the answer and shade on the answer sheet provided
指示：请在准备好的答案纸上划黑作答

F1 Do you read food label when buying or receiving food/drink?
 当你正在购买或接受食品/饮料的时候，你会否阅读食品标签？

A. Yes, every time/每次都会

B. Yes, sometimes/偶尔会

C. No/不会

(Straight to question F3 and answer till question F10/
 请直接跳去回答问题 F3，并继续回答至 F10)

(Please answer question F2 and question F5 till F8/
 请回答问题 F2，并直接跳去 F5 继续回答至 F8)

F2 If you do not read food labels, specify the reason? **You may choose more than one answer**
 如果你没有阅读食品标签，请列明原因。你可以选择多个答案

| Reasons for not reading food labels/ 没有阅读食品标签的原因 | |
|---|---------------------------------------|
| A | Small printing font/字体太小 |
| B | Do not understand food labels/不明白 |
| C | Not interesting/不感兴趣 |
| D | Do not know the importance/不懂其重要性 |
| E | No time/没有时间 |
| F | Already know the information/已经知道相关资料 |

F3 What kind of information do you read from the food label? **You may choose more than one answer.**
 你会从食物营养标签上阅读哪些营养资料？你可以选择多个答案

| Nutrition fact information/营养资料 | |
|---------------------------------|--------------------------------------|
| A | Energy content/日能 |
| B | Carbohydrate/sugar content/碳水化合物/糖含量 |
| C | Fat content/脂肪含量 |
| D | Protein content/蛋白质含量 |
| E | Salt/ sodium content/钠含量 |
| F | Vitamin content/维生素含量 |
| G | Mineral content/矿物质含量 |
| H | Fiber/纤维 |

Tinjauan Persekitaran Rendah

- F4** Based on the picture of drink sample below, what kind of information do you read?
You can choose more than one answer

根据以下饮品为例，你会阅读以下哪些资料？您可以选择多个答案

| Type of Information/食品资料 | |
|--------------------------|--------------------------|
| A | Expiry date/有限期 |
| B | Dietary declaration/食品标签 |
| C | Nutrition fact/营养资料 |
| D | Halal logo/清真标志 |
| E | List of Ingredients/成分 |
| F | Storage instruction/存放指示 |

Food and Beverage Module

Based on nutrition fact on **Packed Drink XYZ** shown below, please read and state whether the statement is correct or wrong.

根据以下**XYZ**包装饮料的食品说明。请阅读明白并确定下列陈述正确与否。

| Nutrition Facts for Drink XYZ / XYZ 包装饮料食品说明 | | |
|---|---------------------------|---------------------------------------|
| Serving size: 食用分量: 250 ml / 毫升 Serving per box/每包装所含食用份量: 1 | | |
| | Every 100 ml/ 每 100 毫升 | Every serving 250 ml/ 每食用份量 250 毫升 |
| Energy/能量 (kcal/千卡) | 56 | 140 |
| Carbohydrate/碳水化合物 (g/克) | 10.9 | 27.3 |
| Total sugar/总糖量 (g/克) | 10.6 | 26.5 |
| Protein/蛋白质 (g/克) | 0 | 0 |
| Fat/脂肪 (g/克) | 0 | 0 |

- F5** If I drink 100ml of this drink, it provides 56 kcal of energy.
如果我喝下这100毫升的饮料，它将提供56千卡能量。

- A True/正确
B False/不正确
C Don't know. 不知道

- F6** If I drink 1 box of this packed drink, I obtain 26.5 gram of sugar.
如果我喝下这包饮料，就等于我摄取了26.5克糖。

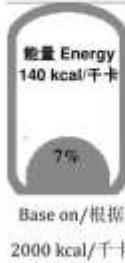

- A True/正确
B False/不正确
C Don't know/不知道

Front-of-Pack Nutrition Labels

Based on the energy content from the front part of label (shown below), please indicate whether the following statement is true or false.

根据以下前面的能量摄取标签(*front of pack labelling*), 请确定下列陈述正确与否

One serving/每食用份量
Contain/含有 250 ml/毫升

- F7** Energy for 2 serving of this food is 140 kcal
两份食用份量将提供140千卡的能量

- A True/正确
- B False/不正确
- C Don't know/不知道

- F8** If I drink one serve of this food, it provides 7% energy from 2000 calories
如果我喝了一份食用份量, 它将从 2000 千卡中提供 7% 的能量。

- A True/正确
- B False/不正确
- C Don't know/不知道

Tingkuan Pemakanan Remaja

**Product Ice Cream A
冰淇淋 A 产品**

List of ingredients/成分:

Sugar, Olein/Palm kernel, Milk solids, Glucose syrup, Cocoa powder.

糖, 精油/棕榈仁油, 乳固体, 葡萄糖浆, 可可粉

F9 What ingredient that is mostly used in this ice cream?
在这冰淇淋内, 什么成分是最高?

- A. Milk solids/乳固体
- B. Glucose syrup/葡萄糖浆
- C. Sugar/糖
- D. Olein / Palm kernel oil/精油/棕榈仁油
- E. Cocoa powder/可可粉

F10 What ingredient that is least used in this ice cream?
在这冰淇淋内, 什么成分是最低?

- A. Glucose syrup/葡萄糖浆
- B. Sugar/糖
- C. Olein/Palm kernel oil/精油/棕榈仁油
- D. Milk solids/乳固体
- E. Cocoa powder/可可粉

Module G: Anthropometric Results

| MODULE G : ANTHROPOMETRIC MEASUREMENT G 组： 人体测量 | | | |
|---|---------------------------------------|---|---|
| Instruction: This section will be completed by the student in the answer sheets provided 指示： 在这环节，学生将在所准备的答案纸上作答 | | | |
| G1 | Anthropometry measurement date/测量日期: | | |
| | <input type="text"/> Day/日期 | <input type="text"/> Month/月份 | <input type="text"/> Year/年份 |
| G2 | Body weight/体重 | | |
| G2a | Weight 1/体重1 | <input type="text"/> . <input type="text"/> kg/公斤 | |
| G2b | Weight 2/体重2 | <input type="text"/> . <input type="text"/> kg/公斤 | |
| | Refuse to be measured 不愿被测量 | <input type="checkbox"/> | |
| G3 | Body height/身高 | | |
| | G3a | Height 1/身高 1 | <input type="text"/> . <input type="text"/> cm/厘米 |
| | G3b | Height 2/身高 2 | <input type="text"/> . <input type="text"/> cm/厘米 |
| | Refuse to be measured 不愿被测量 | <input type="checkbox"/> | |

Appendix 8: Consent Form**Parents Consent Form**

Borang Persetujuan Ibu Bapa/Penjaga NHMS 2017

RISALAH MAKLUMAT IBU BAPA/ PENJAGA (RESPONDEN BAWAH 18 TAHUN)**1. Tajuk:**

Tinjauan Kebangsaan Kesihatan dan Morbiditi (NHMS) 2017

2. Nama Penyelidik dan Institusi:

- i. Dr. S Maria Binti Awaluddin, Institut Kesihatan Umum, Kementerian Kesihatan Malaysia
- ii. Puan Ruhaya Binti Salleh, Institut Kesihatan Umum, Kementerian Kesihatan Malaysia
- iii. Dr. Mohd Kamal Ariff Bin Abdul Ghani, Institut Kesihatan Umum, Kementerian Kesihatan Malaysia

3. Nama Penaja:

Kementerian Kesihatan Malaysia

4. Pengenalan:

Kementerian Kesihatan Malaysia sedang menjalankan Tinjauan Kebangsaan Kesihatan dan Morbiditi 2017 pada tahun ini. Terdapat dua fokus utama dalam kajian ini iaitu Tinjauan Kesihatan Remaja dan Tinjauan Pemakanan Remaja. Maklumat di bawah akan menjelaskan hal-hal berkenaan tinjauan tersebut untuk anda membenarkan anak anda menyertai tinjauan ini.

Adalah penting untuk anda memahami mengapa tinjauan ini dilakukan dan apa yang perlu anda lakukan. Sila ambil masa yang secukupnya untuk membaca dengan teliti penerangan yang diberi sebelum anda memberi persetujuan untuk anak anda menyertai tinjauan ini. Jika anda mempunyai sebarang kemusyikan ataupun memerlukan maklumat lanjut, anda boleh bertanya dengan mana-mana ahli kumpulan tinjauan ini.

Setelah anda memahami maklumat tinjauan ini dan memberi keizinan untuk anak anda mengambil bahagian, anda perlu menandatangani Borang Persetujuan Ibu Bapa/ Penjaga (**Salinan Ibu-Bapa/Penjaga & Salinan Penyelidik**) yang disertakan bersama-sama risalah ini. Tuan/Puan mempunyai masa selama tujuh (7) hari untuk membuat keputusan bagi penyertaan anak Tuan/Puan dalam kajian ini. Borang persetujuan yang telah ditandatangani akan dikumpul oleh pasukan penyelidik sebelum pengumpulan data dijalankan. Penyertaan anak anda dalam tinjauan ini adalah secara sukarela dan anak anda boleh menarik diri pada bila-bila masa. Anak anda boleh tidak menjawab mana-mana soalan atau menarik diri dari pemeriksaan yang disebutkan sekiranya tidak mahu. Keengganan anak anda untuk mengambil bahagian atau menarik diri tidak akan menjasakan sebarang manfaat perubatan atau kesihatan yang sememangnya hak anak anda.

Tinjauan ini ditaja sepenuhnya oleh Kementerian Kesihatan Malaysia dan telah mendapat kelulusan Jawatankuasa Etika dan Penyelidikan Perubatan, Kementerian Kesihatan Malaysia.

5. Apakah tujuan tinjauan ini dilakukan?

Tujuan tinjauan ini dijalankan adalah untuk memperoleh maklumat berkenaan kesihatan dan faktor pelindung serta menilai status pemakanan, corak pengambilan makanan dan corak aktiviti fizikal dalam kalangan remaja berumur 10 hingga 17 tahun. Maklumat yang diperoleh ini akan dikaji dan dinilai bagi membantu penilaian keberkesanannya strategi yang dilaksanakan di peringkat sekolah dan untuk meningkatkan kesihatan remaja.

6. Apakah yang perlu anak saya lalui/lakukan sekiranya bersetuju untuk menyertai tinjauan ini?

Memberi respon terhadap soalan-soalan kaji selidik yang perlu dijawab oleh anak anda dan juga pengambilan ukuran berat dan tinggi yang akan dilakukan oleh pasukan penyelidik.

7. Apakah tanggungjawab anak saya sewaktu menyertai tinjauan ini?

Adalah penting untuk anak anda menjawab kesemua soalan yang ditanya oleh ahli penyelidik dengan lengkap. Menyertai tinjauan ini tidak memerlukan anda mengeluarkan sebarang perbelanjaan.

8. Apakah risiko dan kesan-kesan sampingan menyertai tinjauan ini?

Tiada risiko terhadap anak anda sekiranya menyertai tinjauan ini memandangkan tiada kaedah yang invasif atau merbahaya digunakan.

Borang Persetujuan Ibu Bapa/Penjaga NHMS 2017

9. Apakah manfaatnya anak saya menyertai tinjauan ini?

Tinjauan ini tidak memberikan sebarang saguhati atau kesan kesihatan secara langsung apabila anak anda menyertai tinjauan ini. Namun, segala maklumat yang diperoleh daripada tinjauan ini akan dapat membantu penggubal dasar untuk merancang dan menambahbaik program sedia ada untuk golongan remaja di Malaysia.

10. Adakah maklumat perubatan anak saya akan dirahsiakan?

Segala maklumat anak anda yang diperoleh dalam tinjauan ini akan disimpan dan dikendalikan secara sulit, bersetujuan dengan peraturan-peraturan dan/atau undang-undang yang berkenaan. Hanya penyelidik, peninjau yang berkelayakan, auditor, dan pihak berkuasa yang berkaitan kajian ini sahaja mempunyai akses kepada maklumat yang anak anda berikan. Sekiranya hasil tinjauan ini diterbitkan atau dibentangkan kepada orang ramai, identiti anak anda tidak akan didedahkan tanpa kebenaran anda terlebih dahulu.

11. Siapakah yang perlu saya hubungi sekiranya saya mempunyai sebarang pertanyaan?

Sekiranya anda mempunyai sebarang soalan mengenai tinjauan ini atau memerlukan keterangan lanjut, Tuan/Puan boleh hubungi penyelidik, Dr. S Maria Awaluddin, Puan Ruhaya Salleh dan Dr. Mohd Kamal Ariff Abdul Ghani di Institut Kesihatan Umum, Jalan Bangsar, Kuala Lumpur di talian 03-22979400 untuk penjelasan lebih lanjut.

Jika anda mempunyai sebarang pertanyaan berkaitan dengan hak-hak anak anda sebagai responden dalam tinjauan ini, sila hubungi Setiausaha, Jawatankuasa Etika & Penyelidikan Perubatan (MREC), Kementerian Kesihatan Malaysia di talian 03-22874032.
